Curriculum Details

Curriculum type : Local

Curriculum planning

In accordance with Education Bureau's curriculum guide, we compile a curriculum that matches children's development, interest and life experience of the age. Adopting the Activity Approach, our curriculum lets children explore through different themes, in order to build up knowledge, manner and skills. We also value children's language learning, so English and Mandarin classes are taught by full-time teachers to strengthen children's ability to read and express in both languages.

We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.

Learning / Teaching approach & activities

We mainly adopt the Thematic Approach and the Activity Approach. We arrange different activities and educational trips according to the themes so as to match with children's developmental needs.

Assessment of children's learning experiences

We record children's learning results through on-going observation.
