| Curriculum Details  |  |
|---|--|
| Curriculum type : Local   |  |
| Curriculum planning   |  |
| Spiral teaching is adopted to guide children build up knowledge by learning progressively. It focuses on learning through games demonstrating the skills of problem solving and aims at fostering students' positive values and attitudes towards life from a very young age.   |  |
| We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.   |  |
| Learning / Teaching approach & activities   |  |
| 'Child-centred' group learning approach is adopted. Project approach is implemented in all three levels at our school. Students and teachers investigate their chosen topic in depth together. This ignites the learning curiosity in the students and they have a constructive learning journey together. Various engaging activities are organized according to the different areas of learning. Moreover, during this learning journey, our school has also implemented opportunities for parent child activities. |  |
| Assessment of children's learning experiences   |  |
| Children's development and abilities are assessed through continuous observation and recording. A learning portfolio is distributed twice throughout the year. There is also an ongoing communication between parents and teachers throughout the school year. This ensures that the school and home work together and there is a timely intervention in the development of young children.   |  |

| School Characteristics  |  |
|---|--|
| School vision and mission   |  |
| Balanced development in spiritual, moral, intellectual, physical, communal, and artistic aspects is promoted besides providing enjoyable learning environment. We endeavor to foster the ambitious, pragmatic and creative campus culture for creation of conditions for provision of 'people-oriented' quality education. Through biliteracy and trilingualism, children gain knowledge in different areas, skills and values in the atmosphere of trust and care which are useful tools for surviving in the society. Our expectation is to nourish students who are self-confident, respect the others and pursue life learning. |  |
