Curriculum planning

According to the Education Bureau's Curriculum Guidelines, we teach Linguistic, Cognitive, Affective, Social, Large & Small Muscle, Fine Art & Art and Cultural courses in a systemic way to cater to children's abilities, interests and needs. Picture Book Teaching and Theme Teaching are the core of curriculum to nurture children to attain all-round development in the domains of ethics, intellect, physique, social skills and aesthetics. There is a special "Amazing Curriculum", which combines "Amazing English", "Creative Integrated Arts", "Amazing blocks" and "Stem". And we offer environmental education to encourage children to protect and cherish nature.

We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.

Learning / Teaching approach & activities

Throughout our year-long curriculum, we organize visits, group activities, drama activities, environment interaction, and use developmental materials and aids, while allowing children to explore, observe, play games, operate, and share and interactive with others.

Assessment of children's learning experiences

Our teachers will record children's actual learning performance and activities systematically using continuous assessments as a basis for their development progress and an evidence of their development. Apart from this, student's works and arts will be collected for assessment.
