Curriculum Details	
Curriculum type : Local	
Curriculum planning	
<p>Our school place students at the centre of our curriculum design. With regards to the "Kindergarten Education Curriculum Guide" (2017), we offer a spiral school-based curriculum with reference to physical and psychological development of children, so that what was learnt at kindergarten bridges with the primary one curriculum.</p> <p>We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.</p>	
Learning / Teaching approach & activities	
<p>Regent's Kindergarten takes a thematic approach to development of a comprehensive curriculum. We place 'play' as the center of the center of teaching methodology to bridge all learning aspects. Learning by doing, our students find motivation and interest in learning. Through moral storytelling activities, we help our students develop good character and practice of positive attitudes and moral values. Explorative science activities are designed based on student's interest and development to nurture curiosity and adventurous spirit.</p>	
Assessment of children's learning experiences	
<p>We record and assess a child's learning outcome based on records of ongoing observation. A profile is also kept on the child's journey of learning. This, together with the assessment report will be shared with the parents so they understand thoroughly their child's development and follow up accordingly.</p>
