	(full - day)	Joining Child Care Centre Subsidy Scheme	-
Providing occasional child care services	-	Providing extended hours services	-

Curriculum Details

Curriculum type : Local

Curriculum planning

The school curriculum is constructed according to the Education Bureau's "Guide to the Pre-primary Curriculum". Our ability-appropriate curriculum is taught in different ways with elements that boost children's autonomous learning and is designed to provide children with the greatest care and the experience necessary for their learning. This arouses children's interest in learning and nurtures their balanced development in moral, intellectual, physical, social and aesthetic areas so that they get prepared for a bright future and grow into active, responsible, contributing citizens with a lifelong love of learning.

We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.

Learning / Teaching approach & activities

Our teaching methods, such as theme-, group-, project-, story-, picture book- and situation-based teaching, vary with themes. We provide different themes which children can discuss on, so that they can improve their language and communication skills, understand each other, cultivate a good listening attitude, and finally acquire much knowledge. To create a relaxed pleasant environment for children, we organize a wide range of interesting activities and games based on themes. Training children interested in science through forecasting, verification results, so as to nurture children's inquisitiveness. We make full use of various activities including visits, seminars, competitions, skill show, etc., to cultivate children's self-confidence and affection.

Assessment of children's learning experiences

As part of our parent-school partnership initiatives, parents will gain an in-depth understanding of their children's growth & development, learning performance from their personal portfolios, development assessment reports and continuous learning performance reports in a bid to create a pleasant learning journey for our children.

School Characteristics

School vision and mission

In keeping with the school-running mission of the STFA, we seek to provide high quality pre-school education for children. In the spirit of "No Child Left Behind", we provide children with a happy, enriching environment that caters to their development needs and abilities and where children are encouraged to participate in group learning. This triggers their curiosity and desire for knowledge, and helps them cultivate an interest in learning and good lifestyles. In this way, we empower our children to "Learn to Learn, Take the Initiative to Learn, Develop a Love for Learning" so as to consolidate their lifelong learning concept and build a foundation of future learning.

Support to students

School social worker services, free dental checkup, a pre-school rehabilitation service and regular Parent Seminars and Workshops to assist students with their individual development and support the needs of their parents in parenting.

Support to non-Chinese speaking (NCS) students

Engage NCS parent volunteers to enhance communication between school and parents; create an inclusive learning environment to facilitate students' integration.

Support to students with special needs

Joining the On-site Pre-school Rehabilitation Services.

Link with parents

Parent-teacher association : Yes

Other activities / communication with parents

Interviews with Teachers before or after class to strengthen the school-parent communication and contact, in addition to contact via the online platform or by phone; regular Parents' Day, Parents Seminars, Parent-Child Picnic Day, Parents' Meetings and School Newsletter to enhance mutual understanding and realize cooperative disciplining.
