Curriculum Details	
Curriculum type : Local	
Curriculum planning	
<p>Our curriculum is arranged in a spiral way to cater to children's physical and mental development with a focus on Bi-literacy and Tri-lingualism through themes. Picture-books and a project-based teaching approach which helps the children broaden their learning experience across six major areas, and cultivate their creativity. Our school implements the "Amazing Curriculum", which includes Amazing blocks, Amazing English and Moral education reading books which are all supported by the borrowed reading pen. Allowing students to learn from games, books and other methods, enhancing their interest in learning while being introduced to learning techniques.</p> <p>We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.</p>	
Learning / Teaching approach & activities	
<p>Our curriculum uses picture books-based, life themes-based and general knowledge learning approach to empower children to participate in their own learning. With freeplay, outdoor visits, scientific experiments, dramas, stories, etc., we encourage children to explore and to learn and gain more diverse experiences at the same time. To emphasize biliteracy and trilingualism, we provide English and Putonghua classes. We also incorporate different English and Putonghua activities to extend the learning experiences.</p>
