Curriculum Details	
Curriculum type : Local	
Curriculum planning	
<p>We emphasise teacher-student interaction and provide learning activities based on personal inquiry and experience to help children develop multiple intelligences, generic skills and a good living habit. We encourage children to think more, ask more, try more, experience more, collaborate more, communicate more and participate more (7M). Life education is implemented through the relationship between children and environment as well as human interaction. We add art courses in life education and turn the core value of life education into nutrient and power for children's growth. It is to help children to build up positive values and characters including courtesy, mutual respect and caring.</p> <p>We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.</p>	
Learning / Teaching approach & activities	
<p>1. Achieve "learning by doing" from teachers who provide inspiring learning environment and activities, with loving guidance and enlightenment in different pedagogies. 2. Implement "Life –wide Learning" to extend children's interests by processing in-depth observation and information searching when exploring in the community, so that they can acquire empirical learning and practical knowledge. 3. We are very proud of our dedicated team of native English and Putonghua teachers. 4. Cooperate with parents to nurture children's positive personalities and good living habits.</p>	
Assessment of children's learning experiences	
<p>Continuous observation and assessment system has been established to provide children developmental assessments in various areas and promote holistic development in children mind and body.</p>	

Monthly salary range of principal & teaching staff (Data as of Mar. 2023)

- (i) ≤ \$30,000
- (ii) \$30,001 - \$40,000
