	(full - day)	Joining Child Care Centre Subsidy Scheme	-
Providing occasional child care services	-	Providing extended hours services	-

Curriculum Details

Curriculum type : Local

Curriculum planning

Base on Child-centredness and whole person development of children. According to their physical and mental development needs, interests and life experiences, our curriculum is designed with subject seminars & workshops where children can develop their knowledge, communication skills and problem-solving abilities across a variety of learning areas through inquiry, observation, data collecting, and discussion and other interactions. More importantly, we integrate in the curriculum moral character, health, environmental protection, and emotional education. We nurture children to attain all-round development and inspire their "Multi-Intelligence" development through a variation of activities and collaborative programs with colleges and universities.

We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.

Learning / Teaching approach & activities

We use picture books, themes and project-based learning methods, and integrate different elements, such as life experience, comprehensive discussion, story, drama, audio-visual materials and language environment to our curriculum, to promote interactive learning between teachers and children, and between children. Our professional Mandarin teachers and native English teachers try to arouse children's interest in learning Mandarin and English by games, role playing, songs and stories. We have always adhered to the Concept of "TWGHs Move Towards a Green Organization" to cultivate children's environmental awareness and educate them to protect environment in their daily life. Furthermore, we promote development of children's creative arts through "picture book-based teaching" while cultivating children's creative thinking and interest in reading.

Assessment of children's learning experiences

Assessments are conducted based on children's knowledge in their respective learning areas, the development of basic abilities, the cultivation of values and attitudes, etc. We perform summative assessments using theme assessments and parents' feedback, and eventually form "Children's Learning Portfolios".

School Characteristics

School vision and mission

By providing "Whole-person Education" and an excellent learning environment. Building up basic concepts and cultivating in them positive values and attitudes. Inspire their individual potentials so that they grow into independent thinkers, responsible contributors to society and become good citizens and encourage them to lead a full and meaningful life.

Support to students

New Students Adaption activities, Big-Brother & Sister Helper Activities for new students, adaption activities for admission to P.1, Graduates Tea Party, Environmental Protection and Health Seminars, community visit and support, and cooperation programs of the Education Bureau and with colleges and universities. Moreover, the board provides fund for students to participate in various types of body art and interest class activities in order to inspire children's multi-intelligence development.

Support to non-Chinese speaking (NCS) students

Received Grant for Support to NCS Students; appoint additional teaching staff / teaching assistants to support NCS students learning Chinese; arrange interpretation / translation services; create an inclusive learning environment to facilitate students' integration; facilitate professional development for teachers to develop effective strategies to help NCS students learn Chinese.

Support to students with special needs

Joining the On-site Pre-school Rehabilitation Services.
