	(full - day)	Joining Child Care Centre Subsidy Scheme	-
Providing occasional child care services	-	Providing extended hours services	-

Curriculum Details

Curriculum type : Local

Curriculum planning

Our school has followed the Kindergarten Education Curriculum Guide (2017) by the Education Bureau of Hong Kong to design a curriculum that is based on children's experiences, interests, and abilities. The curriculum has also integrated the elements of "learning through play" and free exploration so as to enhance their concentration and interest in learning.

We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.

Learning / Teaching approach & activities

Our teachers will design engaging learning activities that are based on children's life experiences. These activities will be carried out through the formats of small groups, whole class, or interest corners. Children will be able to learn in an authentic environment by observation, collecting information, discussion, recording, and sharing experiences. We also provide opportunities for children to take control of their own learning experiences, and meanwhile, teachers will stimulate their thinking and creativity. Outdoor activities will be also conducted once a week so as to enrich children's social life experience. We have also adopted technology in children's learning with the use of electronic whiteboards to foster their interest.

Assessment of children's learning experiences

Our school has adopted the use of continuous observation for assessment. Our teachers will observe children's performance in daily learning activities and record the important information about them at various stages as evidence of their growth. Then, we will develop a portfolio and a summary report for each child.

School Characteristics

School vision and mission

We endeavour to provide quality education for our children and support them in a balanced development in the domains of ethics, intellect, physique, social skills and aesthetics, so as to achieve the goal of whole-person development.

Support to students

Our school has received a support grant for non-Chinese speaking (NCS) students in order to provide additional support for them, including hiring additional teachers or teacher assistants to support NCS students to learn Chinese, creating a rich Chinese Language environment, fostering teachers' professional development, and helping NCS students to improve Chinese learning skills.

Support to non-Chinese speaking (NCS) students

Received Grant for Support to NCS Students; appoint additional teaching staff / teaching assistants to support NCS students learning Chinese; create an enriched language environment for mastery of the Chinese language; facilitate professional development for teachers to develop effective strategies to help NCS students learn Chinese.

Support to students with special needs

Joining the On-site Pre-school Rehabilitation Services.

Link with parents

Parent-teacher association : Yes

Other activities / communication with parents

1. Our school regularly conducts early education learning workshops, family hiking and interest classes. Parents are encouraged to take part in the school's volunteer program to help strengthen homeschool ties. 2. We regularly publish a school newsletter "星如遊踪" to help parents understand the school curriculum development, students' learning in the school, the school news, etc. Our teachers will maintain regular face-to-face and telephone communication with parents in order to foster home-school cooperation.
