Curriculum Details	
Curriculum type : Local	
Curriculum planning	
<p>Based on children's life experience, our curriculum adopts various teaching strategies and approaches like environment exploration, physical manipulation, sensory games, experience sharing, question inquiry and other interactive learning. We use whole class, groups, individuals and other learning forms to inspire children to think and play to their potential. The kindergarten hires native English teachers to teach English, so as to boost children's interest in learning English and to enhance children's listening and speaking skills in English.</p>	
Learning / Teaching approach & activities	
<p>We integrate the elements of multiple intelligences into the activity approach, the thematic approach, small group teaching and the project approach and all activities are incorporated with the learning elements of whole language and arts. Daily teaching activities are combined with games and we arrange off-campus visits according to the teaching themes.</p>	
Assessment of children's learning experiences	
<p>Teachers continuously observe and record children's development in every aspect and then offer appropriate guidance and follow-up. Every month we distribute children's learning assessment record and carry out specific assessments, on-going observation and record of children's learning effectiveness, so that parents understand their children's performance in every aspect. We hold a seminar for parents in the school biannually.</p>	

School Characteristics	
School vision and mission	
<p>Sharing the common mission and 5 Core Values (Truth, Justice, Love, Life and Family) of Catholic Schools to provide Whole Person Education and basing on our school motto "In Constantia Fortitudo" (Keep practising with perseverance), we guide our students to pursue knowledge, to cultivate their disposition, to develop their potential and to contribute to the society. Ultimately, we hope that teachers and students would appreciate the Gospel and God's mercy through teaching, learning and the campus life.</p>	
Support to students	
<p>New student adaptation period, incremental class sessions to help children adapt to school life. We design primary one simulation learning activities and arrange primary school visits for children to have a preliminary understanding of primary school life.</p>	
Support to non-Chinese speaking (NCS) students
