Curriculum Details	
Curriculum type : Non-local	
Curriculum planning	
<p>Our kindergarten curriculum adopts a thematic approach to teaching and the golden standards of the renowned Alpha Plus Group EYFS curriculum, that is designed for early years development in preparation for future learning. We have a spiral curriculum design, from shallow to deep, from simple to complex, from concrete to abstract; to match the learning interests, abilities and needs of young children. A 30-minute daily Putonghua session is included to develop children's abilities in speaking and listening through stories, rhymes, songs and roleplay. In addition, Jolly phonics is taught with stories, rhymes, and songs to develop children's abilities in spelling and to stimulate interest in reading. Chinese and English Reading Schemes are also used to encourage good reading habits.</p>	
Learning / Teaching approach & activities	
<p>We are dedicated to help children develop their own characters and to discover their potentials, to stimulate creative and critical thinking through encouragement and to build up self-motivation and self-learning skills by actual experience and observations.</p>	
Assessment of children's learning experiences	
<p>Each student receives formative assessment (checklist and individual portfolio) in personal growth and development through observation, records and follow-up items throughout the academic year.</p>

School Characteristics	
School vision and mission	
<p>At David Exodus, our vision is to celebrate each child's uniqueness and curiosity towards the world around them. In alignment with the beliefs of Alpha Plus Group, we do not believe in a "one size fits all" approach. We embrace diversity and respect every child as an individual. Our teaching team is not only there to care for the students, but also to understand children's individual needs. Furthermore, we uphold the principles of inclusion to allow our children to develop their strengths and fulfil their true potential. Our aim is to provide an ideal learning environment for children to learn from exploration and grow up healthily and happily. We've designed age-appropriate teaching content to nurture children's all-round development and lay a solid foundation for further study in the future.</p>
