Curriculum Details	
Curriculum type : Local	
Curriculum planning	
<p>Our school's curriculum has been designed in accordance with the "Kindergarten Education Curriculum Guide" (2017) "Joyful Learning through Play Balanced Development All the Way". The medium used to teach students is storybooks, which corresponds to each learning field that is taught. We create a wide range of games to ensure children have a creative learning experience through play. By playing games, children demonstrate creative thinking skills which allows them to modify games with their own ideas and further develop their multiple intelligences. In addition, children can improve their problem-solving skills, acquire new knowledge and adopt positive mindsets and values which promote students' well-being. Religious Education is also taught at school and this helps to nurture children's hearts. Overall, we cultivate children to attain an all-round development in moral, intellectual, physical, social, aesthetic and spiritual aspects</p> <p>We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.</p>	
Learning / Teaching approach & activities	
<p>The school provides a suitable environment and adopts the small group class teaching to give the children more chance to express themselves and participate. We adopt activity approach and project teaching, focusing on the children's directional experience and interest so as to stimulate their thinking mode of learning and are based on the self-discovery, independent and conscious study. We aim to use different visiting activities to broaden their horizon and make adjustments according to their learning ability and interest.</p>	
Assessment of children's learning experiences	
<p>Each learning subject will be assessed by constantly observing and recording the children's performance. Each child will have a children learning process archive to record his or her life in the kindergarten.</p>	

School Characteristics
