## Curriculum Details

Curriculum type : Local

Curriculum planning

Our curriculum adopts the Whole Language approach, where courses take a spiral progression from easy levels to more difficult ones to match children's individual abilities and interests. Knowledge is through observation, exploration, thinking and hands-on participations. Every week, there are Bible story day, sometime there are Mixed-age learning Day, English Day, Mandarin Day, Art and Craft Day, etc. for kids to explore and build up new knowledge through these multivariate activities. The course focuses on parent-child participation, such as hand-made design for festival, family day camp, parent-child sport day, parents are invited to participate in the project approach activities together..

We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.

Learning / Teaching approach & activities

We adopt the Activity Approach, group discussions, outdoor learning and project study to develop children's interests and the spirit of exploration. In order to cater for the different elements required for children's growth, we provide programmes like Life Education, Emotional Health, Civic education, Mandarin and English Day, Art and Craft Day, Sharing Day and Mixed-age learning Day for children to gain knowledge, skill and attitude under a relaxed and joyous environment.

Assessment of children's learning experiences

We carry out continuous observation and assessment based on themes, and record children's learning.
