Curriculum Details

Curriculum type : Local

Curriculum planning

Our curriculum adopts the principle of promoting comprehensive and balanced development in children covering five developmental objectives, namely "Moral Development", "Cognitive and Language Development", "Physical Development", "Affective and Social Development", "Aesthetic Development", with a view to actualizing the development in the five domains of ethics, intellect, physique, social skills, aesthetics and spiritual respectively.

We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.

Learning / Teaching approach & activities

Our school curriculum is designed according to children's real life experience, and increases children's interaction opportunities through group teaching. We create a rich learning environment, allowing children to play freely in various situations. We cultivate the learning attitude of children to actively explore, think, ask and create from games. The school also encourages children to explore and learn through their senses to enhance their learning ability through sight, hearing, taste, smell and touch. The school also enhances children's interest in language learning and their listening and speaking skills through reading and diversified biliterate and trilingual games. The school makes good use of external resources and guides children to visit the outdoors according to the learning theme to broaden children's horizons. Through religious classrooms, the school enriches the balanced development of children's body, mind and spirituality, enriching the children's spiritual life, and knowing how to respect and cherish life.

Assessment of children's learning experiences

The assessments includes a project learning assessment report, the class observation report, and an overall development report. Parents will receive an assessment file every semester. Teachers will report the students' performance and give advice to parents.

School Characteristics
