Curriculum Details	
Curriculum type : Local	
Curriculum planning	
<p>1. Focusing on children's life experience and learning interest, we design multiple-intelligence-based curriculum to meet their needs. 2. We foster children's intellectual curiosity and diversified learning potentials so as to promote their balanced development and lifelong learning.</p> <p>We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.</p>	
Learning / Teaching approach & activities	
<p>1. Through various learning strategies (e.g. data collection and computer), children may explore and think positively, develop good living habit, problem-solving aptitude and correct values. 2. Putonghua and foreign teachers give weekly classes to cultivate children's biliterate and trilingual abilities, as well as, to promote their expression and language proficiencies. 3. Free interest classes (e.g. emotional activity and gymnastics classes) are held to promote children's multiple intelligences and potentials.</p>	
Assessment of children's learning experiences	
<p>1. To promote children's holistic growth in the 6 domains of moral, intelligence, physical, social, aesthetics and spiritual, we conduct formative assessment (all the year round) for children according to their development stages. 2. We keep a personal learning and growth record for every pupil. It includes child's performance and progress. The evaluation methods include assessment record, photo record, work record, scenario observation record, preschool children development report and learning process portfolio.</p>
