Curriculum Details

Curriculum type : Local

Curriculum planning

The kindergarten plans the curriculum in accordance to nurture children's knowledge, skills and attitudes. Learning runs through six learning areas and five developmental goals: Children's development in Moral, Cognitive and Language, Physical, Affective and Social, as well as Aesthetic. Design a comprehensive curriculum with appropriateness and flexibility to lay a solid educational foundation for young children's lifelong learning and whole-person development.

We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.

Learning / Teaching approach & activities

According to the development of children, we design diversified learning experience activities, uses the strategy of "games" to empowers children to explore freely in the environment, and stimulates children's intrinsic learning motivation. In terms of learning Putonghua and English, create a rich language environment, and improve the effectiveness of learning and teaching through interesting methods.

Assessment of children's learning experiences

In each thematic unit, teachers evaluate children's learning through observation and distribute relevant evaluation reports to let parents know their children's learning process. At the same time, teachers collect examples of children's performance in different areas through continuous and systematic observation, and analyze children's learning ability in an objective manner to establish personal learning history files, so that parents and teachers can understand children's learning needs through communication and cooperation, as to give children appropriate assistance and support.

School Characteristics

School vision and mission

Upholding CCC's vision: "Together we nurture richness of life; Hand in hand we witness Love of Christ", we are driven by the love of Christ to establish children's positive mentality, morality & spirituality, & enrich their knowledge to achieve balanced morality, intellect, health, sociability, aesthetic & spirituality.
