Curriculum Details

Curriculum type : Local

Curriculum planning

Our child-centred, preschool curriculum guides our teachers to meet the needs and cater to the growth of the students. Through set learning objectives, broad content and activities, we foster a balanced development in ethics, intellect, physique, social skills and aesthetics alongside a robust academic curriculum.

We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.

Learning / Teaching approach & activities

We use an activity based approach, small group teaching and a "project approach" to stimulate the children's interests and imagination. Through a variety of extra-curricular activities and the encouragement of more interaction, we explore the different potentials and abilities of our students.

Assessment of children's learning experiences

We use a broad assessment model which entails continuous observation of behavior. We record all aspects of development through a "Personal Learning" portfolio.
