Curriculum planning	
<p>Through our balanced and relevant curriculum, we implement the "Humanistic Education" to enhance children's holistic development. We strive to cultivate children's ability to learn actively and good character and to elevate their potential and uniqueness.</p> <p>We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.</p>	
Learning / Teaching approach & activities	
<p>Through diversified, inspiring and interesting environment settings, we let children learn from play. We arrange alternating dynamic and static group and individualized learning activities, so that children have suitable space and time for self-directed learning. There are singing, arts and craft, and physical fitness activities every day. The teacher sets guidance programs according to children's individual development.</p>
