	(full - day)	Joining Child Care Centre Subsidy Scheme	-
Providing occasional child care services	-	Providing extended hours services	-

## Curriculum Details

Curriculum type : Local

Curriculum planning

Our curriculum is based on the Bible and constructivism learning theory. Students' learning occurs through "doing to learn" and "playing to learn". The project approach arouses the young children's interest in learning through interacting with their surroundings. They will work together with their teachers to develop the learning content, collect information, explore senses, experiment and discuss. The activity enables children to cultivate related knowledge in each learning phase and develop their self-learning ability through inquiry learning, expression of opinion and problem-solving. The development of life skills and attitudes toward lifelong learning is cultivated through pleasurable learning experiences, which also lay a solid foundation for education afterwards.

We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.

Learning / Teaching approach & activities

Combining the Project Approach with diversified activities, we encourage children to learn from exploration, self-plan learning and draw support from life experience to construct the ability to solve problems. Meanwhile, children can master the capacities of thinking, judgement and organization through the optional learning time in the class.

Assessment of children's learning experiences

By way of authentic assessment, the school uses daily observation, children learning file records, children's works analysis and various learning evaluation reports to assess their learning performance, give feedback to teaching, and other care for those who need guidance.

## School Characteristics

School vision and mission

Our school aims to exalt the spirit of God's love to the world, provide high-quality holistic education and establish a positive, healthy and happy learning community for both students and their parents. We enable our students to grow holistically and become the pillar of the future society.

Support to students

Our school arranges activities for new students' adaptation period and helps them adapt to school life. It also makes arrangements to prepare the students for the transition from kindergarten to primary school. In addition, a part-time educational psychologist and part-time social worker provide support for students and families.

Support to non-Chinese speaking (NCS) students

Received Grant for Support to NCS Students; appoint additional teaching staff / teaching assistants to support NCS students learning Chinese; arrange interpretation / translation services; engage NCS parent volunteers to enhance communication between school and parents; create an enriched language environment for mastery of the Chinese language; create an inclusive learning environment to facilitate students' integration; facilitate professional development for teachers to develop effective strategies to help NCS students learn Chinese.

Support to students with special needs

Joining the On-site Pre-school Rehabilitation Services. Our school's educational psychologist provides ongoing support to teachers and parents to cater to our students' learning differences through continuous observation and assessment.

Link with parents

Parent-teacher association : No

Other activities / communication with parents

Parents' day, course introduction, class observation, festival and sports day, parents' classes and different seminars for parents
