Curriculum Details	
Curriculum type : Local	
Curriculum planning	
<p>We compile our integrated curriculum according to the EDB's "Kindergarten Education Curriculum Guide". We focus on the six learning areas and conduct our daily learning activities with thematic and project-based approaches. We hope to foster children's balanced development in the moral, cognitive and language, aesthetics, affective and social, physical and spiritual domains through play and exploration.</p> <p>We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.</p>	
Learning / Teaching approach & activities	
<p>To cater the developmental needs and learning interests of children, we promote learning through play in various learning activities including Putonghua and English lessons. Children are given opportunities to explore and discover through discussions, role-play, games, outings, art and character education activities. We establish children's moral behaviours and build up their positive emotions through home-school collaboration.</p>	
Assessment of children's learning experiences	
<p>We record children's learning progress in conducting theme, small group, music and physical activities through ongoing observation. We also keep parents informed about their children's development and learning progress by distributing the learning portfolio attached with children's photos, artwork samples along with teachers' observation records.</p>
