## Curriculum Details

Curriculum type : Local

Curriculum planning

A series of diversified learning activities are designed based on children's needs in development. This promotes balanced development in multiple intelligences such as language ability, mathematical logic, interpersonal communication, self-reflection, musical rhythm, body movement, visual art and spatial concepts and observation of the Nature. Through this, children gain knowledge and skills besides fostering accurate attitudes towards the self and things around them.

We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.

Learning / Teaching approach & activities

Thematic and project-based teaching is given in child-centered approach. The contents include: experiments, simulation activities, creative activities, site visits, parent-child activities and reading schemes. The aim is to ignite learning motives and encourage children to search and build up knowledge voluntarily through the activities.

Assessment of children's learning experiences

Learning outcome is recorded through ongoing observation.

## School Characteristics

School vision and mission

To develop holistic education with the love of Christ. Our school badge is formed by 6 letters (CHRIST) which represent 6 beliefs: Creativity, Happiness, Relationship, Integrity, Self-Esteem and Trust. We believe these 6 attributes play an important role in a child's development. We focus on helping them develop these attributes deliberately and imperceptibly, and provide appropriate teachings to help children be healthy physically, psychologically and spiritually.

Support to students

New student adaptation period, primary one adaptation programmes, and activities in cooperation with community organizations. Support by professionals on child development and have social workers to school counselling services.
