Curriculum Details	
Curriculum type : Local	
Curriculum planning	
<p>According to the "Kindergarten Education Curriculum Guide (2017)", our curriculum is designed to cater to children's interests, abilities and experiences and deepen their learning across disciplines and through diversified and instructive activities, to help them attain balanced development in knowledge, skills and attitudes, and lay a strong foundation for their future learning. We focus on cultivating children's moral character and social responsibility. Through a systemic health education curriculum, we help our students develop a healthy lifestyle as a child. We implement of moral education early childhood curriculum to help children develop positive values, to enhance their psychological qualities.</p> <p>We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.</p>	
Learning / Teaching approach & activities	
<p>We introduce an activity-based teaching approach, which allow children to learn from games, become confident, and exploit their potential. Our project-based learning approach can develop children's creative thinking and initiative in learning. Our outdoor comprehensive learning approach can expand children's horizons and extra-curricular knowledge, and enable them to acquire first-hand experiences through field observation to construct their knowledge. We give English lessons within a class- or group-wide range, and allow children to learn to listen, speak and read easily and to learn English phonics systematically by arranging storytelling, singing, drama, reading and many other interesting activities.</p>	
Assessment of children's learning experiences	
<p>Through continuous observations, records are kept of children's learning achievements and theme assessment reports are prepared at the end of a theme to give parents an understanding of their children's learning progress. We gather children's personal information, works, worksheets, activity records, achievements and other data on a daily basis to form their personal learning portfolios. At the end of each term, we make development assessment reports, growth reports and health portfolios.</p>
