	(full - day)	Joining Child Care Centre Subsidy Scheme	-
Providing occasional child care services	-	Providing extended hours services	-

Curriculum Details

Curriculum type : Local

Curriculum planning

A child-centred curriculum with diversified content based on the needs of a child's physical and psychological development and their learning interest. Our curriculum includes 6 learning areas, namely 'physical fitness and health', 'language', 'early childhood mathematics', 'nature and living', 'self and society' and 'art and creativity', and the training of the related knowledge concepts, skills and attitude so as to promote development of a child.

We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.

Learning / Teaching approach & activities

The children learn through learning activities, visits and excursions, projects and moral education activities. Our school adopts an integrated approach of 'music, physical and aesthetic' activities, enabling children to develop their potential in music, physical fitness and aesthetics. We implement free play encouraging children to use different materials and various methods to make up their own plays, developing their self learning capacity. Teachers observe children's interest and performance during their plays and extend their learning with appropriate activities planned.

Assessment of children's learning experiences

We prepare a Portfolio of Children's Learning for each child every year. We adopt continuous observation to record children's learning with a summative report on their learning and development. For parents' assessment, parents are invited to assess their children's learning and development at home, so that a more holistic and objective assessment of each child can be compiled.

School Characteristics

School vision and mission

We offer Christianity-based education the fostering of respectability, freedom, creativity and loving one another as oneself. Students learn to respect oneself and others, is willing to sacrifice for others, embraces holistic outlook on life and lives with love and aspirations. We firmly believe that we should accept students of different abilities with open arms and help them bring into play their potentials through flexible means because all are equal before God and everyone is given by God the unique potential.

Support to students

We provide ample support to new students and those with special education needs, include Meeting for New Parents, Adaptation Period for new students and the school-based social worker. The Hong Kong Society for the Deaf also provides training for children in need.

Support to non-Chinese speaking (NCS) students

Received Grant for Support to NCS Students; appoint additional teaching staff / teaching assistants to support NCS students learning Chinese; arrange interpretation / translation services; create an enriched language environment for mastery of the Chinese language; create an inclusive learning environment to facilitate students' integration; facilitate professional development for teachers to develop effective strategies to help NCS students learn Chinese; Teachers design and make appropriate teaching aids to support NCS students learning Chinese and they can take the teaching aids for practice at home.

Support to students with special needs

Joining the On-site Pre-school Rehabilitation Services.
