Curriculum Details	
Curriculum type : Local	
Curriculum planning	
<p>'Multiple intelligence and development of potentials' are our educational goals. The elements of 'teaching with picture books', 'art education' and 'quality English language teaching' are integrated into the curriculum. High-level thinking and explorative learning processes are provided according to the children's interests and abilities. They learn the enjoyable way through 'participation, games and actions'. This enriches their learning experience and stimulates their abilities of exploration, creation and self-directed learning.</p> <p>We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.</p>	
Learning / Teaching approach & activities	
<p>Various learning activities are designed in line with the children's development. A learning environment is created to enhance the teaching and learning outcomes. 'Games' and 'Experience Approach' strategies are used in the teaching of Putonghua and English language. A rich language environment is created for the children to learn and apply the linguistic knowledge naturally in a lively and interesting manner.</p>
