Curriculum Details	
Curriculum type : Local	
Curriculum planning	
<p>At Tivoli, we place a strong emphasis on language development. Multilingual proficiency provides children with a gateway to numerous cultures and opportunities, broadening both their horizon and social network. We employ qualified native English speakers to teach English at both our Anglo-Chinese Kindergarten (local curriculum) and International Playschool (non-local curriculum). Similarly, all our Putonghua teachers are native speakers who have passed the National Putonghua Proficiency Test. By immersing children in a language-rich environment, we hope that they can learn to communicate effectively and naturally both in English and Putonghua.</p> <p>We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.</p>	
Learning / Teaching approach & activities	
<p>We use an integrated approach in conjunction with efficient and rich learning centres in each classroom which includes areas such as Language, Reading, Math and Science, etc. The activities in each centre have clear objectives providing diversified learning materials with various levels of difficulty, which children are allowed to choose freely according to their own ability and interest. In addition, we adopt the positive discipline approach to foster and develop children's responsibility, self-discipline, problem-solving and cooperation skills.</p>	
Assessment of children's learning experiences	
<p>To monitor the learning effectiveness of children through continuous observations, including their works, academic and emotional records, conversation logs and home assessment by parents.</p>
