We are devoted to provide children with a pleasant learning environment, so that children can attain all-rounded and well-balanced development. <p>A diversified and children-oriented spiral-theme based teaching approach is adopted. We provide exploration activities, arts-integrated activities and free play to enhance children's learning interest. Furthermore, to cultivate children's language development of "Biliteracy and Trilingualism", we also provide a language-rich environment for children to gain preliminary exposure to Cantonese, English and Putonghua through songs, stories, contextual learning and games. In order to allow children to experience Chinese culture, we design a wide variety of interesting learning activities to cultivate children's interest in Chinese literature, martial arts, art and traditional food culture from an early age.</p>
