Curriculum Details

Curriculum type : Local

Curriculum planning

The child-centred curriculum is developed according to development of children. It integrates life experiences and interest of young children, balanced development of children is achieved through diversified activities: language, exploration of science, drama, body art, affective education and creative aesthetics. Multi-sensory learning is also provided to encourage exploration, enhance children's ability to handle information and solve problems. The curriculum will be reviewed regularly to ensure appropriateness.

We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.

Learning / Teaching approach & activities

The space approach is adopted. Sufficient space and time are provided for learning. The classroom is divided into various zones, such as language zone, science and mathematics zone, art zone, music zone and physical fitness zone for children's free exploration, creation and learning so as to enhance their learning interest, creativity and ability of thinking. Other activities: English language is taught by native-speakers, topic study, site visits and interest classes.

Assessment of children's learning experiences

A profile on journey of learning and child development report are prepared to record a child's development in all aspects for ongoing and conclusive assessments.

School Characteristics

School vision and mission

To provide multiple child care services which meet social and family needs, such as child and infant services, integrated service, occasional care service and extended services so as to provide all-round care and education. A rich learning environment is provided for fostering the spirit of exploration and self-directed learning to help them develop continuously and lay the foundation for life learning.

Support to students

To understand the needs of children and their parents through various channels, and help families in need with school social workers and through referral services. To provide speech therapy, physiotherapy, occupational therapy and support services from clinical psychologists to children with special needs. A professional team is formed to arrange English reading club for graduates, a professional ancillary medical scheme is also launched.

Support to non-Chinese speaking (NCS) students

Appoint additional teaching staff / teaching assistants to support NCS students learning Chinese; create an enriched language environment for mastery of the Chinese language; create an inclusive learning environment to facilitate students' integration.

Support to students with special needs

Joining the On-site Pre-school Rehabilitation Services.
