Curriculum planning

Our school uses a well-balanced and diverse teaching method to promote all around development and independence in our students. Children learn in a bilingual, stimulating and enabling environment with the aim of learning through self discovery. Our teaching provides real life, sensory experiences allowing our children to gain first hand knowledge. Moral education is emphasized in order to develop the concept of right and wrong in addition to nurturing positive values in our children. Lessons are also led by a Chinese class and a Native English class teacher in order to promote a bilingual setting for children. Mandarin lessons are also conducted by a specialized native speaking teacher.
