Curriculum Details	
Curriculum type : Local	
Curriculum planning	
<p>Our native English class teachers provide a fun and stimulating learning environment. All lessons and activities are fully collaborative to ensure a language rich environment. Our native Mandarin class teachers adopt an Inquiry Approach to Learning, combined with theme-based lessons, to engage curiosity and help children make sense of their world. Our students are always encouraged to ask questions, but also strive to find their own answers, working independently and with others.</p>	
Learning / Teaching approach & activities	
<p>We offer a bilingual curriculum in Chinese and English. We believe this cultivates children's good pronunciation and exerts a subtle influence on children's language study. We promote an inquiry-based learning method to arouse children's learning interests and cultivate children's active learning attitudes through exploration and self-discovery.</p>	
Assessment of children's learning experiences	
<p>We undertake continuous assessment through daily observation records. We use a systematic observation process to analyse the overall development of individual children in multiple areas.</p>

We aim to provide a stimulating environment for young learners and foster their emotional, physical, social and moral development through child-centered teaching approach.</p>
