Curriculum Details

Curriculum type : Local

Curriculum planning

Focusing on biliteracy and trilingualism, we teach in English, Mandarin and Cantonese. Based on the physical and mental development of children as well as the six learning areas, we emphasize the comprehensiveness and use children's life experiences as the starting point to integrate the activities of different learning areas. Meanwhile, we use the connection between the main themes and the sub-topics to add or eliminate certain activities according to the children's interests, so as to ensure cohesion of kindergarten and primary school.

We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.

Learning / Teaching approach & activities

We are child-oriented and we adopt the Activity Approach, the Thematic Approach and the Project-based Learning, together with the Spiral Progression, for teaching. According to children's development capabilities, we make use of interesting and diversified activities to enhance their learning interest. We also arrange trips and visits to sooth children's curiosity and exploring spirit. Besides, every year we organize the Visual Arts Week to foster children's literacy in arts. We ensure that children learn from play in a pleasant atmosphere.

Assessment of children's learning experiences

Concise rating scales, observation and event logging are used to help teacher gain comprehensive understanding of children's development, which in turn helps us to review our teaching method and to develop better learning programs for small kids. Contents of the rating scales and the logging are important information to communicate with parents. They help parents understand their children's potential and learning situation.

School Characteristics

School vision and mission

"Train up a child in the way he should go and when he is old, he will not depart from it" (Proverbs 22:6). We nurture children to develop good habits and to lay the foundation for their future learning. We actively develop holistic education for children.
