Providing occasional child care services	Yes	Providing extended hours services	Yes

### Curriculum Details

Curriculum type : Local

Curriculum planning

Child-oriented course designed based on children's development needs. The learning contents integrate life experiences and interest of children. Balanced development is promoted through a wide range of activities such as explorative science, drama, Orff music, affective education and creative art. Multiple sensory learning is also provided to encourage exploration and enhance children's ability to handle information and problem-solving ability. The curriculum is reviewed on regular basis to determine appropriateness.

We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.

Learning / Teaching approach & activities

Personal exploration and creativity are emphasized in learning. Children are arranged to leave the classroom and participate in community activities, such as site visits and friendly visits. Classroom learning includes activity-based approach, topic studies, individual and group learning. The Orff music theories are applied in music activities. Native-speaking teachers are employed to teach the English language. Other activities are also organized, such as interest classes.

Assessment of children's learning experiences

A profile on the journey of learning is kept and the report on child development is compiled for recording development in various aspects and ongoing and conclusive assessments.

### School Characteristics

School vision and mission

Various child services are provided to meet the needs of the society and families and provide all-round care and education for children. These include full-day class, Integrated Programme, occasional child care, extended care and free school bus services. A rich learning environment is designed to encourage exploration and help develop self-directed learning to lay sound foundation for life learning.

Support to students

Parents' and children's needs are known through various channels. Assistance and referral services from social workers to families in need. Language therapy, occupational therapy and support services from clinical psychologists for children with special needs. Professional teams are arranged to hold English reading sessions for K3 students and the provision of professional auxiliary medical schemes.

Support to non-Chinese speaking (NCS) students

No information

Support to students with special needs
