	(full - day)	Joining Child Care Centre Subsidy Scheme	-
Providing occasional child care services	-	Providing extended hours services	-

Curriculum Details	
Curriculum type : Local	
Curriculum planning	
<p>Our school curriculum follows the "Kindergarten Education Curriculum Guide" (2017) issued by the Education Bureau. It covers the 6 learning areas that are embodied in our class system. "Play" is the major teaching strategy that promotes group teaching. We also incorporate the Project Approach to suit students' interest and capabilities and to promote "independent learning" and "cooperative learning". Our curriculum also includes self-care and moral education to help students build proper habit and positive moral value.</p> <p>We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.</p>	
Learning / Teaching approach & activities	
<p>1. Free Play: To cater the playful and gaming nature of our children, we create an appropriate environment and provide the correct tools for students to learn and study in a fun way. Through selecting tools, inviting playmates, designing games, we hope to increase the student's interest in learning, and to help them utilize their creativity and learn about different things around them. 2. Moral Education: By implementing the "Inner Beauty Garden" Character Education Course through storytelling, group work and the "Best Conduct Scheme", it helps students in developing a good moral character. 3. School-based Scientific Exploration: By organizing scientific exploration, we provide students with the opportunities to observe and explore scientific concepts. Our objective is to help students learning scientific concepts and promote the attitude of self-exploration and self-learning through experiments and activities. 4. Project Approach: Through the discussion with teachers, the students are given chances to explore the answers about the main theme. Students have more opportunities to express their opinions, utilize their language skills, persuade and work with others. The goal is to help students developing a positive attitude towards learning. 5. Little Gardener Activities: Children will take turns to participate in planting activities in the garden, and then take the harvest home to make different dishes. This helps to nourish their virtue of cherishing food.</p>	
Assessment of children's learning experiences	
<p>Our school adopts the "continuous evaluation" and "student learning portfolio" to track students' development in the classroom. Through practical learning environments and activities, teachers will record students' unique progress in order to help them retain a good experience with learning in kindergarten.</p>	

Monthly salary range of principal & teaching staff (Data as of Mar. 2023)

- (i) ≤ \$30,000
- (ii) \$30,001 - \$40,000
- (iii) > \$40,000

School Characteristics	
School vision and mission	
<p>Our school follows the vision of PLK, to uphold "love, respect, hard work and honesty". We aim to provide a whole-person development for our students and help them develop their full potential, meet challenges and gain rich learning experiences. Create a warm learning environment, with game corners spread out across the campus. Aim to stand together with parents wholeheartedly, to support our students and to help them gain initiative and confidence through different modes of learning.</p>	
Support to students	
<p>We provide parent-child adaptation activities for new students, primary one transition activities, school social worker services, support for special education needs and referral services.</p>	
Support to non-Chinese speaking (NCS) students	
<p>Received Grant for Support to NCS Students; appoint additional teaching staff / teaching assistants to support NCS students learning Chinese; arrange interpretation / translation services; engage NCS parent volunteers to enhance communication between school and parents; create an enriched language environment for mastery of the Chinese language; create an inclusive learning environment to facilitate students' integration; collaborate with non-governmental organisations (NGOs) to create an inclusive learning environment; facilitate professional development for teachers to develop effective strategies to help NCS students learn Chinese; participate in school-based professional support programmes organised by EDB.</p>	
Support to students with special needs	
<p>Joining the On-site Pre-school Rehabilitation Services.</p>
