Curriculum planning	
<p>With the Education Bureau's Guide to Pre-primary Curriculum as the direction, the curriculum mainly adopts the spiral and integrated approach supported with specially designed activities. All activities are arranged according to children's learning interests, abilities and student differences, reinforcing engagement of all types of students. We adapt the diverse approach with all activities that allow children to learn through games, helping them enhance their sensory play and critical thinking. We aim to help children master in learning, building knowledge, fostering good attitudes and skills, thereby maintaining the required discipline. We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.</p> <p>We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Curriculum planning	
<p>We believe child-centredness, respect the uniqueness of individual child and understand the needs of children. With reference to the Kindergarten Education Curriculum Guide 2017, our school-based curriculum is innovated to meet the needs of children and foster the development of their potential. We set up rich bilingual learning environment. Children are provided with early immersion in meaningful English and Chinese contexts.</p> <p>We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.</p>	
Learning / Teaching approach & activities	
<p>Theme-based learning and project approach are placed as the curriculum core of our school. Children are provided with various learning opportunities which they learn in real-life context, explore through applying sensory motor and practice how to think. They are motivated to learn and experience the freedom of exploration and discovery. Besides, We promote reading culture and encourage parent-child reading at home. Children can enjoy reading and enhance their language skills. Reading can help children to gain knowledge, develop appreciative emotions, nurture appropriate learning attitudes and practice positive thinking. Ultimately, it promotes balanced development of children. Learning is not bounded by four walls and can happen at any time in any place. We provide ample outdoor experience which allows children to learn through play and life, enrich their learning experience, nurture their good character, get along with peers, practice self-discipline and respect others. Attach importance to the inheritance of Chinese culture, establish national identity, and achieve whole-person development. Therefore, our educational approach helps the child to grow emotionally, mentally and physically strong.</p>	
Assessment of children's learning experiences	
<p>Through on going observations, children's development progress is recorded for effective assessment of learning outcomes.</p>	

School Characteristics	
School vision and mission	
<p>Adhering to the spirit of Buddhist compassion, and under the influence of Chinese culture, cultivate in children the good morals and wisdom. We hope to nurture children to attain all-round development in the domains of ethics, intellect, physique, social skills and aesthetics. We provide an inspiring and pleasant learning environment for children and cultivate them to learn actively. Providing comprehensive quality services for children and parents, to achieve the goal of Buddhist education.</p>	
Support to students	
<p>To help children from new immigrant families, non-chinese children integrate into campus life. We tend to provide individual counselling for children with difficulty and special needs to integrate into social life.</p>	
Support to non-Chinese speaking (NCS) students	
<p>Received Grant for Support to NCS Students; appoint additional teaching staff / teaching assistants to support NCS students learning Chinese; arrange interpretation / translation services; engage NCS parent volunteers to enhance communication between school and parents; create an enriched language environment for mastery of the Chinese language; create an inclusive learning environment to facilitate students' integration; facilitate professional development for teachers to develop effective strategies to help NCS students learn Chinese.</p>	
Support to students with special needs	
<p>Joining the On-site Pre-school Rehabilitation Services.</p>	
Link with parents	
<p>Parent-teacher association : Yes</p>	
Other activities / communication with parents	
<p>Monthly Parents Interactive day is held. Various formal and informal communication channels, for sufficient communication between school and parents. It co-organizes parenting seminars and parent-child activities with the Parent-Teacher Association to promote home-school cooperation.</p>

Curriculum Details	
Curriculum type : Local	
Curriculum planning	
<p>The curriculum is formulated according to children's objectives of development, in line with the trend of child education, covering 6 key learning areas and taking into consideration children's interest, ability and overall development. Development of 'creative thinking' is emphasized. Stimulating multiple intelligences is the axis of the curriculum to help children attain holistic development.</p> <p>We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.</p>	
Learning / Teaching approach & activities	
<p>Various learning modes including 'activity-based approach', 'specially designed activities' and 'all-round approach' are adopted to stimulate children's interest in learning and the spirit of voluntary exploration. Visits and experience-based activities are arranged to help learning so as to enrich children's life experiences. Extended activities are designed to consolidate what is learnt.</p>	
Assessment of children's learning experiences	
<p>A profile on development is compiled based on overall development of children for ongoing assessment purpose. Children are analyzed in multiple perspectives in open and objective manner.</p>	

School Characteristics	
School vision and mission	
<p>We help the young generation develop based on the principle of 'caring your own children and those of others'. Children are guided to learn and grow with love, encouragement and praise, so that they develop multiple intelligences and attain the goal of life learning.</p>	
Support to students	
<p>Progressive adaptation period is provided for new students. Visits to primary schools and simulation primary one activities are arranged for K3 students as preparations for transition to primary education. Integrated programmes are launched to support children with special learning needs. Individual counselling is provided for children from new immigrant families to help them adapt to class learning.</p>	
Support to non-Chinese speaking (NCS) students	
<p>Collaborate with non-governmental organisations (NGOs) to create an inclusive learning environment.</p>	
Support to students with special needs	
<p>We provide Integrated Programme in Kindergarten-cum-Child Care Central by Referral System for Rehabilitation Services</p>

Curriculum planning	
<p>Curriculum is determined with reference to theories and studies of children's development, needs of children in physical and psychological development and learning interests. Attention is paid to balanced development and uniqueness of children. We endeavor to stimulate children to bring into play their potentials and develop self-directed learning.</p> <p>We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.</p>	
Learning / Teaching approach & activities	
<p>Learning modes such as thematic approach, project approach, and socio-cultural education are adopted emphasizing the life experiences of children and fostering quality life. We arrange news sharing, theme-based explorations, national awareness, cultural and art activities, spiritual and moral educational activities, whole language learning, site visits, talks from experts, and parent-child activities to enrich their learning. Joint School Creative Art Exhibition and graduation drama performance are organized annually. We also focus on 'Life Education' which is an essential element in childhood development. To enhance our children by paying close attention to our environment, communities, and society, we set up a series of picture books for life education and providing a spiral curriculum. In this curriculum, children would establish a positive value at the start of their life and learn from real-life experiences.</p>	
Assessment of children's learning experiences	
<p>Through routine ongoing observation, record of activities and assessment, children's development ability in various learning areas and needs are known for reference of the design of curriculum. It also helps parents know their children's development timely so arrangements can be made accordingly. Through these, development of children is promoted through home-school collaboration.</p>

Curriculum planning	
<p>Designed with reference to theories and studies of children's development, needs of children in physical and psychological development and learning interests. Attention is paid to balanced development and uniqueness of children.</p> <p>We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.</p>	
Learning / Teaching approach & activities	
<p>The curriculum is taught through topic studies and thematic approach. Children's life experiences and the fostering of civic awareness are emphasized. News sharing is arranged every day. Site visits, visits from experts, field trips, parent-child activities are arranged to support learning. Children's development of creative art is emphasized. Art activities are organized every afternoon. Drawing exhibitions, creative drama performance and joint school children's choir are also organized annually. Individual development, interests and abilities of the children is also emphasized. We provide Four Montessori Classrooms that meet international standards, including practical life, sensorial, mathematics, language and cultural area, to support children's comprehensive development.</p>	
Assessment of children's learning experiences	
<p>A child's development in language, physical fitness, social skills, emotion and art is known through ongoing observation and assessment done routinely.</p>	

School Characteristics	
School vision and mission	
<p>Childhood is the unique and precious stage in one's life. We emphasize the creation of a safe, healthy, rich and interactive quality learning environment for promotion of balanced development in intellectual, physical, emotional and social aspects. Children are stimulated to learn with zeal, foster good living habits, attain balanced development in physical and psychological aspects so that they are well-prepared for primary education. Various art and cultural activities are arranged to help develop hobbies in art. We also offer assistance to working parents with education and child care services so they go to work worry free.</p>	
Support to students	
<p>New students and primary one adaptation programmes, parent-child reading programmes and activities held in cooperation with community organizations.</p>	
Support to non-Chinese speaking (NCS) students	
<p>Create an enriched language environment for mastery of the Chinese language; create an inclusive learning environment to facilitate students' integration.</p>	
Support to students with special needs

<p>Spiritual education is the core of the programs while thematic instruction forms the overall structure. The "High Scope educational approach" ensures the breadth of the programs and the emphasis on project-based learning achieves depth. Plays are the channels through which children learn.</p> <p>We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.</p>	
Learning / Teaching approach & activities	
<p>1. The school adopts the "plan-do-review" learning process of "High Scope Approach". Children are encouraged to experience, explore, create and learn by undergoing a multi-process journey. 2. It derives motivation from themes, thus leading to activities of project-based learning programs to create a learning atmosphere of "entering the classroom with a question, and leaving with a number of questions." 3. Creative activities rich in language learning and inspire children's interest in learning words. The "Please Listen to Me" Reading Scheme trains up children to recognize and read a lot of English and Chinese vocabulary; The "Free Writing Scheme" increases children's positive attitude towards writing, so as to enhance their ability to use words and write short essays. 4. Native-speaking English teachers prepare school-based teaching materials from daily life scenarios to help children easily master the ability to listen, speak, read and spell. 5. The school adopts Orff Schulwerk in the music activities and makes use of various musical elements to effectively achieve balanced development of children's imaginative capacity, ability of abstraction, spatial intelligence and emotional intelligence, so as to build a foundation for learning instruments in the future. 6. Children become the master of the "Free Play", they have the rights to making choices, planning, creating and discovering. 7. The school infuses an artistic sense into everyday teaching and popularizes art education in daily activities. Children are guided innovatively to participate in learning activities with various artistic elements.</p>

Curriculum Details	
Curriculum type : Local	
Curriculum planning	
Designed according to children's physical and psychological development, learning abilities and interest. Knowledge and life experiences are integrated to enhance children's ability of self-directed learning.	
We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.	
Learning / Teaching approach & activities	
Integrated story-based approach is adopted. Story-based themes are used to promote affection exchanges of children and stimulate learning with affection. Children are guided to explore. Life experiences of children are integrated for joint exploration and develop meaningful learning scenarios and activities. Children's creativity and imagination are ignited, and the theory of 'learning in action and learning in daily life' is put into practice.	
Assessment of children's learning experiences	
A profile on the journey of learning is kept for each student. A child's progress of development is recorded on an ongoing basis. Conclusive assessment is also done to comprehensively review a child's ability and performance at the end of the semester.	

School Characteristics	
School vision and mission	
Based on Jesus Christ's love for the mankind, we provide appropriate teaching and activities in a safe and stimulating learning environment. Children are fostered good living habits and attitudes, so as to achieve balanced development in physical, emotional, social, linguistic and intellectual aspects. Our vision: To create happy, self-confident and healthy children in the love of Jesus Christ.	
Support to students	
New students adaptation period, primary one adaptation assistance, services from school social workers, cooperation with the pastoral area to enhance moral and spiritual education of children, close contact with community organizations and provision of referral services for children as necessary.	
Support to non-Chinese speaking (NCS) students

Curriculum Details	
Curriculum type : Local	
Curriculum planning	
<p>Based on the "Kindergarten Education Curriculum Guide", our school adopts an integrated theme-based curriculum responding to the life experience of children. We value the language and moral development of children. Through corner activities, we stimulate children's interest in learning and arouse their curiosity to seek knowledge.</p> <p>We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.</p>	
Learning / Teaching approach & activities	
<p>The curriculum emphasizes children's life experience. Children develop positive learning attitude through class teaching, doing, visits, exploration, and drama activities etc. We strengthen their language ability through the home reading scheme 'Paired Reading'. Through the programme 'Family Wellness Vitamins', we help children to cultivate a sense of responsibility and resilience; to develop communication skills and the ability to appreciate the surroundings; to boost their self-esteem; and to treasure the time with family and friends.</p>	
Assessment of children's learning experiences	
<p>There is an assessment report for every learning theme. Through observation, works of children, and children and parent feedback, different learning aspects including language, mathematics, physical fitness, self and society, arts and creative expressions, nature and living are assessed continuously. A portfolio of learning and development is then built up.</p>

Curriculum planning	
Learn in play Play in learn. Development of language ability and moral education are the cores of the curriculum. The scope of curriculum includes "Physical Fitness and Health", "Language", "Early Childhood Mathematics", "Nature and Living", "Self and Society" and "Arts and Creativity". Children's needs in different stages of development are catered for.	
We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.	
Learning / Teaching approach & activities	
We adopt the thematic approach which is supported by explorative learning. Children are trained to develop an active learning attitude, well-organized and confident expression skills, discussions with peers and time management for individual learning through site visits, exploration, verification, friendly visits, uniformed teams, fellowship ,physical and art activities held every Wednesday. A rich language environment is created through Putonghua and English teachers for children to practice their bi-literate and trilingual abilities.	
Assessment of children's learning experiences	
Ongoing integrated assessment of children's development abilities in various aspects by analyzing based on observation of children's performance and artistic expression in works, feedback from parents and self-evaluation of children. A profile on children's learning and development is kept as a systematic record of their course of development.	

School Characteristics	
School vision and mission	
We foster good character and morality in children based on the principle and love of Jesus Christ.	
Support to students	
The Board includes members from various professional disciplines, including experienced educationists for effective supervision and promotion of our development into quality education provider. We have school education to provide counselling services to support families besides appropriate counselling and support to children. Various internal and external services are provided. We cooperate with different bodies in the district to offer sound community support network. We expand children's learning experiences and take care of parents' needs. Parent-child campus experience activities are arranged for would-be primary students to help them adapt to primary school life.	
Support to non-Chinese speaking (NCS) students

Curriculum Details	
Curriculum type : Local	
Curriculum planning	
<p>Our curriculum is designed in the child-centred approach emphasizing multiple developments of children. Children are encouraged to discover, experience and explore new things through meaningful learning activities such as: science experiments, creative activities and outdoor visit. Stories are the core elements of our program. Children's learning experience are extended through exploration activities in which children are interested. We emphasize the language development in both Chinese and English. We believe appropriate language environment is important to motivate children's learning.</p>	
<p>We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.</p>	
Learning / Teaching approach & activities	
<p>Spiral approach is the base of the curriculum, which includes elements from concrete to abstract, simple to complex. We take into consideration of children's abilities so as to bridge their previous experiences with new ones. They are also helped to improve the confidence in solving problems and enhance perception skills.</p>	
Assessment of children's learning experiences	
<p>We have children's learning portfolio to record their progress at different stages. Our school will develop different learning strategies according to the observation record and analyze,</p>

Curriculum planning	
<p>The scope of our curriculum is balanced and well-rounded. It provides essential foundations for a child's life-long learning and whole-person development. Besides spiritual, moral, cognitive, language and physical development, our curriculum also covers emotion awareness, social skills and aesthetic development. Based on the characteristics of early childhood development, our scaffolded curriculum focuses on enhancing a child's knowledge, skills, values and attitudes. The school respects individuality and will ensure that each child has the opportunity to develop to their full potential. The school is committed to 'equal opportunity' so that every child who is challenged with learning disabilities can blossom too.</p> <p>We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.</p>	
Learning / Teaching approach & activities	
<p>Our topics are all tailor-made based on a child's daily life experience, thus enhance social skills for coping with the real world. Through a rich and authentic learning environment, students are able to play freely in different scenarios. This learning environment also nurtures the learning attitude of children, they will be able to actively explore, think, question, and create. The ethos of the school also encourages children to explore and learn with their senses: sight, hearing, taste, smell and touch. The school realizes the importance of children's language development, thus emphasis on the strengthening of muscles of mouth through games. Such games facilitate children's pronunciation to improve clarity and confidence. Reading is a core part of learning; each child is introduced to the foundations of written communication to read in English and Chinese. Reading games, which enhance children's speaking and listening skills simultaneously, are key. Learning should never be limited to the classroom; outings are an essential part of our learning. Through religious learning, the children's mental and spiritual health is developed positively and completely. We would like our children to respect and cherish life.</p>	
Assessment of children's learning experiences	
<p>An individual portfolio will be created for each child. Teachers record the child's daily performance through observation. Through formative and summative assessments, the child will develop effectively among the six major learning areas.</p>

Curriculum Details	
Curriculum type : Local	
Curriculum planning	
<p>Our School curriculum is based on the Bible. The Education Bureau's "Kindergarten Education Curriculum Guide" and the Development Appropriate Practice are the foundation of the school curriculum. With an integrated theme-based teaching model, children can, through the living and enjoyable explorative learning activities, acquire knowledge and skill and develop a positive attitude that enhances their multi-intelligence, unleashes their potential, and lays the foundation for future study.</p> <p>We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.</p>	
Learning / Teaching approach & activities	
<p>We attach great importance to establishing an environment conducive to children's learning, strive to create a happy and lively atmosphere, and encourage children to come into contact with things around them for holistic development. Develop children's potential through diverse campus life and lay a good foundation for future learning.</p>	
Assessment of children's learning experiences	
<p>Through continuous observation of children's learning performance, checklists are set according to different learning goals to record children's learning experience and development process.</p>

Curriculum planning	
<p>In line with the aims of ECE in Hong Kong, child development and their needs, a child-centred curriculum is planned. A loving environment and pleasant learning atmosphere is created based on the love of Jesus Christ. The Interactive and Integrated Approach is adopted for enlightenment. Through different learning areas (physical fitness and health, language, self and society, mathematics, arts and creativity, nature and living), a wide range of games and learning activities, the children attain all-round development in moral, intellectual, physical, social, aesthetic and spiritual aspects.</p> <p>We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.</p>	
Learning / Teaching approach & activities	
<p>1. Thematic Approach: The theme of life as the core of the curriculum, through the various areas of learning content, children learn through stories, visit activities, school lectures, family activities and interest activities. 2. Project Approach: The Project Approach involves children in studies of things nearby that interact them and are worth knowing more about. It can provide children with enriched learning experiences. Teachers can enhance the spirit of children to learn. 3. Story teaching programme: Through story telling, children will be able to enhance their learning ability, thinking ability and skills of communication. 4. Free play learning: During free play, children are able to explore their creative side as well as enhancing their ability to solve problems. 5. Holistic Innovative Education: Children through multiple senses and small group discussion to learn. We emphasis on children's high degree of participation in order to strengthen children's learning motivation. 6. Orff Music Teaching Method: The Orff Teaching Method is the teaching of various arts such as music, dance, drama and literature. Children involve in a musical atmosphere so as to stimulate their creativity. 7. Bilingual Language learning: The School has Foreign English teacher and Putonghua teacher. We provide a bilingual and multicultural learning language environment. The Integrative and Effective Approach can enhance the children's ability to learn Chinese Language. 8. Life Education Curriculum: Topics include self-discipline, thanksgiving, positive thinking, perseverance, love others. We want to build up children's good character.</p>	
Assessment of children's learning experiences	
<p>Ongoing observation, profile on the journey of learning for each student, record of children's progress of development, assessment of theme-based learning and assessment report on child development.</p>

Curriculum Details	
Curriculum type : Local	
Curriculum planning	
<p>The school adopts "Project Approach" learning model to enhance the child's self-learning spirit, creativity and scientific by different sensory learning elements. Students learn through their daily life experience and teacher-student interaction. Also, by children's personal exploration, children can develop multiple intelligence, common ability and good living habits. We believe that through thinking, asking questions, trial and error, experience, communication and participation, students can effectively develop their mind. The school helps children to build a good character in the life education.</p> <p>We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.</p>	
Learning / Teaching approach & activities	
<p>The school takes "Going off campus · Living learning" as the main line. The learning content combines with students' life experience. Through physical coordination, visual touch, life skills and spiritual care, the school stimulates the logical thinking and all-round development. The course includes different practical studies such as: Native English and Putonghua teachers, using games as a strategy to enrich the language context, barbecue activities, snack tasting, scientific exploration, visits, etc. The school also creates an autonomous environment for students in the Free Play sessions. They can choose different corners to learn from their first experience, develop in a balanced manner, enhance their ability to learn independently through different learning elements and build a good foundation for their growth.</p>	
Assessment of children's learning experiences	
<p>The school uses a continuous assessment, parent assessment and student self-assessment to create a complete student portfolio. It contains student work, observation records, homework reports, etc., which continuously record the student's development process. At the same time, a summative assessment is also available to comprehensively examine the progress and performance of the students, so that parents can better understand the physical and mental development of their children.</p>

Curriculum planning	
<p>Our school offers Picture Book Approach for both Chinese and English. We believe the importance of 'Learning Through Play' and plan our curriculum using the Six Learning Areas according to the Education Bureau. We provide interactive and interesting activities for our students to learn happily through playing. Our quality curriculum and rich language environment provide a unique experience of biliteracy and trilingualism for our students. We place a high value on 'Whole Child Approach' and create 'Charisma Enhancement Programme'. That is, to match with our 5As of 'Attitude, Active-learning, Artistic Sensibility, Advocacy and Adaptability'.</p> <p>We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.</p>	
Learning / Teaching approach & activities	
<p>Our school offers bilingual classes for students to learn English and Cantonese. We aim to encourage students to be confident, responsible and sociable. We believe it is equally important for students to learn both inside and outside the classroom. Hence, we provides outing regularly for students to experience different types of learning. There are distinctive learning areas in our school, such as, Rock Climbing Area and Music Room. Learning continues to develop through our remarkable Amazing Block Wall and Reading Corner. We believe our students learn comfortably and happily by 'observing, exploring, thinking and imagining' that are the essential as stated in 'Kindergarten Education Curriculum Guide'</p>	
Assessment of children's learning experiences	
<p>Our teachers assess students on a continuous observation basis. We provide Learning Assessment Reports and Learning Portfolios for parents to understand about their children's learning progress.</p>

<p>Our school tries to bring abstract scientific concepts to students from interesting stories, which allows students to learn through lifelike experiences. This is the most effective way to construct early scientific concepts and enable students to understand what "STEM" is. In order to promote "STEM" and enhance children's interest in exploratory activities, our school hopes every student can have integrated experiences from their early childhood education period. In addition, our school is planning to establish a "Home-School-Community Network" to promote the cooperation between parents, school and our community. We will jointly cultivate children to master the concept of "STEM". Our school will have a variety of activities for students, provide them opportunities to verify their answers and research results as well as cultivate their spirit of exploration.</p> <p>We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.</p>	
Learning / Teaching approach & activities	
<p>Through the questions or problems derived from the stories, students will conduct a process of "discussion ---- thinking and problem-solving ---- analyzing ---- integration of results ---- Report", and this is called "Activity Approach" (AA). AA allows students to obtain some age-appropriate scientific concepts through the practical living environment to enhance their interests of scientific knowledge through meaningful and entertaining activities.</p>	
Assessment of children's learning experiences	
<p>Multiple forms of records are made for children's development in various aspects through ongoing observation.</p>

<p>We provide quality educational services in line with Yan Oi Tong's principle of 'teach all and foster talents'. We endeavor to help children develop language ability and good character for a smooth transition to primary curriculum and provide a sound foundation for life learning. Home-school collaboration is enhanced to jointly help children grow up happily and healthily.</p>	
Support to students	
<p>4 English specialists (include 1 native-speaking English language teacher) and 1 Putonghua teacher are employed, to help children master the use of languages through 'fun' and 'experience'. One kindergarten teacher holds the qualification of registered social worker. We provide full support to meet students' and parents' needs</p>

Spiral teaching is adopted to guide children build up knowledge by learning progressively. It focuses on learning through games demonstrating the skills of problem solving and aims at fostering students' positive values and attitudes towards life from a very young age.	
We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.	
Learning / Teaching approach & activities	
'Child-centred' group learning approach is adopted. Project approach is implemented in all three levels at our school. Students and teachers investigate their chosen topic in depth together. This ignites the learning curiosity in the students and they have a constructive learning journey together. Various engaging activities are organized according to the different areas of learning. Moreover, during this learning journey, our school has also implemented opportunities for parent child activities.	
Assessment of children's learning experiences	
Children's development and abilities are assessed through continuous observation and recording. A learning portfolio is distributed twice throughout the year. There is also an ongoing communication between parents and teachers throughout the school year. This ensures that the school and home work together and there is a timely intervention in the development of young children.

Curriculum Details	
Curriculum type : Local	
Curriculum planning	
<p>The school's theory of the church, social and environmental development, children's interests, teaching resources, activity time, are all measured in the planning of the curriculum. "Knowledge", "Skills", "Attitudes", are also considered for further study arrangements. Chinese language curriculum uses a step-by-step approach from basic speaking skills to the vocabulary of everyday usage, to extend the expression of simple sentences and passages. In English curriculum, children learn letters, sounds, words and sentences. NET teacher increases children's exposure to foreign learning accents and patterns. Mandarin learning through singing and gaming to improve their listening and speaking skills. Scientific experiments are conducted to let children identify answers from observation results from previous prediction. By doing simple research, recording and summary, students can build up new knowledge through the techniques learnt from experiments. Music and physical education are combined into gymnastics, rhythm and games, to cater the interests of children in shaping the physical and psychological development. Arts and crafts, provided with various materials to paint and create, to enhance creativity and imagination as well as nurturing their appreciation of their own and the work of others.</p> <p>We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.</p>	
Learning / Teaching approach & activities	
<p>The "theme courses" will be compiled with a step-by-step spiral teaching according to the development of children. To promote the balanced development of children, the school arranges weekly parent-child reading to let children read more. After activities, children are required record their learning experience through drawings or writing as to strengthen their learning experiences.</p>	
Assessment of children's learning experiences	
<p>The school's assessment policy and standards are taken up by a committee formed by the principal and teachers to regulate the ethics of the scheme that assess to all students. A comprehensive assessment are made through Six Learning Areas, Language, Early Childhood Mathematics, Nature and Living, Physical Fitness and Health, Self and Society and Arts and Creativity. The principle of continuous assessment is drawn up with the content of "Learning and Teaching" in accordance with the development of the children, so as to evaluate the learning experience of students and to understand the different dynamics of the development of individuals. Recognition and appreciation are given to benefit with the ability to obtain appropriate development.</p>	

School Characteristics	
School vision and mission	
<p>We offer children all-round education with principles of "Child-oriented", "Love-oriented" and "Aesthetic-oriented". Forming a solid foundation for bridging the primary school.</p>	
Support to students	
<p>We has clear mechanism & maintain a strong bond with parents through various channels to provide counselling & support for those in need. Student-oriented teaching strategies are used to complement students with different abilities.</p>	
Support to non-Chinese speaking (NCS) students	
<p>Received Grant for Support to NCS Students; appoint additional teaching staff / teaching assistants to support NCS students learning Chinese; engage NCS parent volunteers to enhance communication between school and parents; create an enriched language environment for mastery of the Chinese language; create an inclusive learning environment to facilitate students' integration; collaborate with non-governmental organisations (NGOs) to create an inclusive learning environment; Using flexible teaching strategy and diversity learning to give individual guidance and care to build up their confidence & sense of security.</p>

Curriculum planning	
<p>At Kendall, we take the guiding principles of the U.S. Creative Curriculum and marry it with the essence of Chinese values. The result is a powerful mixture that captures the best of both worlds and provides our students with the ideal educational foundation they need at this stage of their development. We are confident that our unique approach will best equip our students for their future learning endeavours.</p>	
Learning / Teaching approach & activities	
<p>Young children come in all different shapes, sizes and readiness levels to learn. No one exactly the same, they are individuals who come to life's stage with a variety of talents, gifts and poise. Each one occupying a different developmental stage than any other - they are unique. Kendall International Preschool embraces their uniqueness and combines it with the power of purposeful and constructive play. While many of us think of play as leisure activities, the research on its impact on young children's cognitive development and learning is undisputed. Purposeful play has a critical role in the development of logical and diverse thinking, problem solving and a child's acquisition of social skills. An excellent vehicle for children to learn to observe, solve, compare, sort and sequence, the child's knowledge grows as they experiment, make discoveries and shift their own thinking as they incorporate new insights. Play is a crucial vehicle for exploring and learning, developing new skills, building relationships and connecting with others.</p>	
Assessment of children's learning experiences	
<p>Each student is continuously reviewed under the benchmark milestones of the U.S. based Creative Curriculum. These benchmarks are researched based on the universal developmental needs of young children. It is our firm belief that a continuous observation approach optimizes the capturing of the dynamic and uniqueness of each and every child - thus enabling our teachers to tweak and adjust their programs, approaches and learning activities in order to maximize growth and development. Every child is unique and our Creative Curriculum provides us a tremendous platform to grow along with each child.</p>	

School Characteristics	
School vision and mission	
<p>Kendall International Preschool is a community where children with a passion for self-discovery converge with a truly rewarding learning experience. Our unique blend of academic and personal development means our students will be personally poised and academically equipped to successfully enter the finest primary school in Hong Kong and around the world.</p>

Curriculum Details	
Curriculum type : Local	
Curriculum planning	
<p>Our characteristic curriculum is formulated with reference to the Education Bureau's guide to curriculum 2017 and takes into consideration children's development, interests and abilities so as to provide children with rich learning experiences. 'Life course on morality and spiritual education' - Politeness, Confidence, Love, Self-discipline and Help people, Health, Ethics and Honest. Three-year themed teaching on morality is designed based on development characteristics of children of different classes. It is integrated into daily teaching to foster noble character; 'Integrated life-themed course' - Personal experience is emphasized for learning through diversified games. Appropriate activities which cater for children's needs and attributes are arranged to foster the right attitude in children, practical skills and diversified knowledge. 'Special course on bi-literacy and tri-lingualism' - Group teaching and focus learning are adopted to promote children's language development; 'Corner group learning' - Through hands-on operation and interaction with each other. To stimulate children's creative thinking and promote interpersonal relationship; 'Special study with aid of illustration books' - Topic studies are adopted to foster voluntary exploration and problem-solving ability. Listening and oral communication skills and problem-thinking ability are enhanced through teaching aid of illustration books.</p>	
Learning / Teaching approach & activities	
<p>Various teaching approaches including 'thematic approach', 'topic studies', 'picture book teaching', 'group teaching' and 'corners' are adopted to arouse children's learning interest, curiosity and their creativity and stimulate them to think. Various media and activities learning through games are used to enhance children's self-confidence, fostering voluntary exploration and promoting interpersonal relationship. Attention is paid to children's development in various aspects. Holistic development in moral, intellectual, physical, communal, artistic and spiritual aspects is promoted through various types of activities and learning arrangements.</p>	
Assessment of children's learning experiences	
<p>We record children's learning performance, learning outcome and the journey of development through ongoing observation. Relevant information is collected through observation in actual learning environment for record and analysis. It is kept in the children's profile of learning development.</p>

Curriculum Details	
Curriculum type : Non-local	
Curriculum planning	
<p>1. Our school-based curriculum is designed with an emphasis on the seven learning and development areas of the early years foundation stage (EYFS). 2. To promote a whole-person development through diverse learning activities. 3. To encourage children to explore and discover through activities which are life-oriented and address the development needs of our children. 4. Through the purposefully designed learning activities, positive values and attitudes are cultivated. 5. To promote the physical, mental, and spiritual well-being of children through our school-based religious curriculum and worship. 6. To lay a solid foundation for our children's learning in Chinese and English languages and mathematics, to ensure a smooth transition to primary school.</p>	
Learning / Teaching approach & activities	
<p>1. In the current year, we have 28 NETs and 34 NPTs to create a language-rich environment to enhance our children's ability and confidence in reading, writing, listening, and speaking English and Putonghua. 2. Letterland Phonics and Putonghua Pinyin are taught as part of the language curriculum. 3. To enhance children's oral skills through Show and Tell, 5W1H, and the 4W sentence model. 4. Awards are set up to encourage children to listen and speak English and Putonghua often. 5. The Oxford Reading Tree has been selected as the reading series, encouraging parents to cultivate a healthy parent-child reading habit at home. 6. Children have the opportunity to start their writing journey through a school-based writing activity, 'My Book'. 7. To provide children with hands-on learning experiences, stimulate their learning motivation, and cultivate their ability for independent learning. 8. To organise activities such as Book Day, Camp Day, Water Fun Day, and Family Appreciation Day to enrich children's learning experiences. 9. To skills and self-fulfillment abilities.</p>	
Assessment of children's learning experiences	
<p>1. To continuously observe and evaluate children's learning progress in the seven learning and development areas and record them in the Child Development Portfolio. 2. Through close communication between teachers and parents, children's learning progress and strategies to enhance skills and competence are discussed and proposed.</p>	

School Characteristics	
School vision and mission	
<p>To promote the ethos of Christian whole-person education and inspire Gospel-centred learning. To create an enjoyable learning environment for children to attain a holistic and balanced development of the spiritual, moral, intellectual, physical, social and aesthetic well-being.</p>	
Support to students	
<p>1. To support and enhance students' self-care and social skills. 2. To facilitate adaptation with ease in K1 and a smooth transition from K3 to P1 by various adaptive activities.</p>	
Support to non-Chinese speaking (NCS) students	
<p>Received Grant for Support to NCS Students; appoint additional teaching staff / teaching assistants to support NCS students learning Chinese; arrange interpretation / translation services; engage NCS parent volunteers to enhance communication between school and parents; create an enriched language environment for mastery of the Chinese language; create an inclusive learning environment to facilitate students' integration; facilitate professional development for teachers to develop effective strategies to help NCS students learn Chinese; School-based textbooks and activities are designed to support non-Chinese speaking students in learning Chinese.</p>	
Support to students with special needs	
<p>Joining the On-site Pre-school Rehabilitation Services. As soon as students with special learning needs are identified, the school will go through a process of intervention, counseling and referral. To make tiered teaching materials to cater for the learning needs of these individual students.</p>

Curriculum Details	
Curriculum type : Local and Non-local	
Curriculum planning	
<p>Our children come from a variety of backgrounds with a large portions going to both local and international schools. To ensure that students will have the maximum flexibility in their choice of schools, our syllabus is benchmarked to external international benchmarks, with a strong emphasis on English, Cantonese and Mandarin. Our kindergarten is understandably more challenging than traditional schools, but that is the reason why York is so popular among professional and accomplished parents who understand the need of preparing early.</p>	
Learning / Teaching approach & activities	
<p>Our teaching is arranged according to 2 major objectives: 1) To broaden international perspectives: Since 2006, we have been videoconferencing with partners such as the University of Cambridge as well as connecting with children from Miami, Texas, London, Wales, Miami, etc. We have also helped children from developing countries, even adopting 7 children one year from Haiti and Ethiopia through a charity art exhibition. This year, York is taking things to a new level. First, we are partnering with famous HK street artist XEME to create an NFT in the metaverse to help people in Turkey. We have also invited primary schools in Hong Kong and the USA to take part Second, we are planning to have a simulated Dinosaur Dig, whereby children will get to unearth a Tyrannosaurus skull as well as talk to a paleontologist (dinosaur hunter). 2) International academic standards benchmarks: Our key subjects are benchmarked against teaching levels from the UK and USA. We encourage our students to challenge themselves against academic standards such as the Cambridge English Starters and Movers Tests, the American SAT 10 Mathematics assessment, the National College of Music, London preparatory violin exam, etc.</p>

- (i)  ≤ \$30,000
- (ii)  \$30,001 - \$40,000
- (iii)  > \$40,000

School Characteristics	
School vision and mission	
<p>We hold several beliefs in common, objectives that influence and shape every teacher here at York . These 8 objectives unite us in a common voice on what we do: helping children realize and reach their potential. 1) We educate the "whole" child. 2) We teach through experience. 3) We give children solid foundations. 4) We teach English early. 5) We help children develop interpersonal and intrapersonal skills. 6) We involve parents in the child's education. 7) We make learning fun for parents and children. 8) We make a commitment to our profession.</p>	
Support to students	
<p>We provide a lot of support. 1) Learning: High foreign teacher-to-student ratio in a small class setting; specialized software designed in-house to help children extend the learning process beyond the classroom; helping children to challenge international benchmarks in the core subjects of Putonghua, English and Mathematics. 2) Sportsmanship: We are the first kindergarten in Hong Kong to have a specialized in-house golf, archery and tennis programme, backed and sponsored by Prince Tennis. 3) Music: all of our students are exposed to the rudiments of playing the violin before they graduate. We also have an annual Christmas ball, whereby the boys invite the girls to the dance and the children get to practice the Waltz and the Flamenco that we taught them during the year.</p>
