Curriculum Details	
Curriculum type : Local	
Curriculum planning	
<p>Focusing on child-centredness, our curriculum places emphasis on developing children's knowledge, skills, values and attitudes. The curriculum involves six learning areas, providing all-rounded, balanced and appropriate education, while at the same time nurtures children's development in Moral, Cognitive and Language, Physical, Affective and Social, as well as Aesthetic. We aim to provide appropriate care to meet children's development on growth, ability, interest and experience. We respect the individuality of each child and will exercise flexibility in teaching. Special subject teachers will be arranged to hold activities on biliteracy and trilingualism.</p> <p>We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.</p>	
Learning / Teaching approach & activities	
<p>The focus is on daily-life oriented topics and interesting stories that stimulate children's problem-solving, exploration, and creative thinking. The learning content is enriched with picture books and diverse integrated activities designed to enhance the learning experience. Bilingual development is emphasized to improve language abilities through interactive methods. An online parent-child reading program has been established to provide guidance on recommended Chinese and English books for parents, cultivating a love for reading in children. The classrooms feature interest corners equipped with abundant teaching materials, where children engage in exploratory activities using their five senses, encourages children to be more proactive and self-motivated in learning through play, and combined with self-selected grouping method, cultivates children to become active learners.</p>	
Assessment of children's learning experiences	
<p>We adapt both formative and summative assessments, which include reports on knowledge, skills, values and attitudes. Through daily observation and different teaching themes, teachers can assess children's continuous development and will provide reports on picture book activities, behavioral observation and work analysis. Assessment reports that summarize children's overall learning development will be distributed twice a year. Learning Portfolio with all reports and photos of children in various learning activities will be distributed.</p>

- (i) ≤ \$30,000
- (ii) \$30,001 - \$40,000
- (iii) > \$40,000

School Characteristics	
School vision and mission	
<p>We aim to provide all-round quality services and continuously strive to improve and maintain a high standard of service to both children and parents. Our overall objective is to nurture the children by employing whole-person development in the domains of "Moral", "Cognitive and Language", "Physical", "Affective and Social" as well as "Aesthetic". This will lay a solid foundation and prepare the children for lifelong learning.</p>	
Support to students	
<p>Teachers and school social workers will observe children's behaviour regularly to offer help and care. Accommodation classes will be held for new students. Primary school visits will be arranged for children.</p>	
Support to non-Chinese speaking (NCS) students	
<p>Teachers will help NCS children in various ways to deepen their knowledge in social environment, facilities and local culture. We will design games to enhance their motivation on using Chinese language and to enforce their listening, speaking, reading and writing skills.</p>	
Support to students with special needs	
<p>Joining the On-site Pre-school Rehabilitation Services. We respect the diversity of children and by joining services to support children's learning and development. Qualified teachers will keep in touch with parents to care for children's health and growth.</p>	
Link with parents	
Parent-teacher association : No	
Other activities / communication with parents	
<p>Parents will better understand our mission through parent meetings, class observations and seminars. We will contact parents and collect their opinions by phone and interviews. Online communication will be used and will invite parents of alumni to join school activities to share their experience.</p>

Curriculum planning	
<p>Our developmentally appropriate curriculum nurtures a loving heart, cultivates the mind, develops potentials and promotes creativity. Through joyful learning, specially designed curriculum in linguistic, STEM (science, technology, engineering, mathematics), art, music and physical activities, students are confidence and proactive learners; ready for both local and international primary schools.</p> <p>We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.</p>	
Learning / Teaching approach & activities	
<p>Through "theme based" and "inquiry based" activities, students learn in small groups. Through interacting with caring teachers, students develop their linguistic, music, art and motor skills. Our "Free choice Learning Corners" and "Free Play Areas" give children ownership of their learning experience. It's a way for children to expand on what they are learning and explore their own interests. Supporting young children's autonomy has been found to have far-reaching positive effects on the child's development, including benefits to executive function, mastery-related behaviours and general socialisation.</p>	
Assessment of children's learning experiences	
<p>A student's portfolio is a record of students' involvement in learning which is designed to demonstrate success, growth, higher-order thinking, creativity, assessment strategies, and reflection. It provides a picture of each student's progress and development of knowledge, conceptual understanding, transdisciplinary skills, attitudes and the attributes of the learner profile over a period of time both as an individual learner and as group learners.</p>

Curriculum planning	
<p>With an integrated, theme-based curriculum, we devise a wide variety of activities designed according to children's life experiences and interests, to improve our children's development in the six major areas, i.e. Physical, Languages, Aesthetics, Art, Science, Early Mathematics to exploit their full potentials and provide a Healthy School environment. In addition, use picture books in the theme to conduct in-depth and continuous learning according to children's interests and abilities, so that children can become active learners. Others - living and regular training, physical games, music, drawing, story activities, etc.</p> <p>We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.</p>	
Learning / Teaching approach & activities	
<p>We use stories, multimedia materials, pictures, hand puppets and material objects to initiate children's motivation and interest in learning. We also provide children opportunities for observation, exploration, discussion and experience sharing, and encourage them to express and learn by Doing and Playing.</p>	
Assessment of children's learning experiences

Curriculum Details	
Curriculum type : Local	
Curriculum planning	
<p>We follow the Whole-child Approach; activities are designed according to daily life experiences, interest and developmental needs. Children are encouraged to become independent active learners, via role-play, group discussions, high-scope corner play, religious studies, Orff music program, scientific explorations, and project approach; enhancing their spirit for cooperation and exploration. The curriculum promotes a well-balanced and comprehensive approach to children's moral and spiritual, cognitive, physical, social and aesthetic developments.</p> <p>We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.</p>	
Learning / Teaching approach & activities	
<p>The school employs a spiral teaching, step-by-step, approach to enhance infant learning, with a focus on bi-literacy and tri-lingualism. English and Putonghua are taught by specialist teachers to establish a strong foundation for children's language development. Learning is generally conducted in a group-based style, following such difference themes as Seasons, life experience and Festivals. Talks and demonstrations, festive events, performances and outings are arranged as appropriate to the curriculum to facilitate a deeper understanding through play and hands-on experience, interacting with peers and groups in different environments. By combining the resources available from both school and community, children not only develop necessary knowledge and skills, but importance is also placed on cultivating moral and ethical character.</p>	
Assessment of children's learning experiences	
<p>The school adopts continuous observation for assessing the various aspects of children's learning and development; cognitive, physical, emotional, social, aesthetic and cultural developments. A portfolio is established for each child, containing assessment records, creative artwork, documentation of various activities, parental feedback, etc, and are essential in allowing teachers and parents understand all aspects of a child's progress.</p>

School Characteristics	
School vision and mission	
<p>The Hong Kong Sheng Kung Hui (Anglican Church) promotes a Christian whole-person educational model and is committed to nurturing the six fundamental areas (moral, intellectual, physical, social, aesthetic and spiritual growth) of childhood development. It is our mission to remain an exceptional school of Christian values in Hong Kong, providing quality education by means of the whole-person approach.</p>	
Support to students	
<p>The school provides parent-child orientation activities and an adaptation period for all new students. There are also regular lectures for parents and class observation. A social worker is available on the premises to help those children in need of extra support, and can provide referral services when necessary. In preparation for primary school life, visits to local primary schools are arranged on a regular basis. In addition, K,3 students are given a taste of primary school life via simulation sessions of a typical primary (year 1) schedule.</p>	
Support to non-Chinese speaking (NCS) students	
<p>Arrange interpretation / translation services; facilitate professional development for teachers to develop effective strategies to help NCS students learn Chinese.</p>	
Support to students with special needs	
<p>Joining the On-site Pre-school Rehabilitation Services.</p>	
Link with parents	
<p>Parent-teacher association : Yes</p>	
Other activities / communication with parents	
<p>The school actively promotes home-school cooperation; the Parent-Teacher Association (PTA) and the Volunteer Team. Each year, the school collaborates with these organizations to arrange various activities. In order to encourage children in developing good reading habits, there is a parent-child reading program, the 'Story Mamas & Papas' program (parent storytellers).</p>

Curriculum planning	
<p>Our curriculum is based on the "Kindergarten Education Curriculum Guide" to foster students' all-round and balanced development with the nine generic skills. The curriculum is designed according to children's personal experiences and the surrounding environment. The curriculum is also tailor-made for children's interests, abilities and developmental needs and is arranged in a spiral approach. Learning by playing and exploring enhance children's overall development and strengthen their abilities of thinking and problem solving. We have designed a positive character education curriculum in accordance with the development and characteristics of children and our teaching philosophy.</p> <p>We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.</p>	
Learning / Teaching approach & activities	
<p>Children learn and explore by playing. Children's self esteem will be strengthened and they will be motivated to think in the learning environment with the elements of 'holistic innovative education' and 'multi-sensory teaching'. Students' reading and language abilities will also improve by their high level of participation and presentation. "Be The Change" programme encourages children to care for the society, develop their creativity, and take actions to solve problems in order to make a better world. In addition, the phonic courses can arouse students' interest in learning English and children will become more sensitive to English sounds. We are working with The Lutheran Church - Hong Kong Synod to produce e-resources 《路德仔與雪櫃寶寶》 in order to promote moral education. We hope that by using the e-resources, children can know the Biblical truth and their characters can be cultivated. The resources also help to promote children's emotional development. Through outdoor visits and multiple intelligence activities, students are given more learning experiences and their potentiality of different aspects can be stimulated.</p>	
Assessment of children's learning experiences	
<p>Continuous observation, recording, collecting children's works and photos are to be used to analyze and evaluate children's learning progress. Children's learning progress will be reported to parents by students' learning portfolios and the individual appointments with teachers.</p>

Curriculum Details	
Curriculum type : Local	
Curriculum planning	
<p>Through learning and exploration in life, we will implement a 'child-centredness' learning and teaching curriculum. The learning content is coordinated and coherent, practice biliteracy and trilingual teaching (Putonghua, English Phonics), combine learning with interaction, visits, and personal experience, and cooperate with emotional education to make children 'Ethics, intellect, motor, social skills and aesthetics' equal the five virtues of a balanced development.</p> <p>We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.</p>	
Learning / Teaching approach & activities	
<p>Through design activities, picture book teaching, group learning and different extracurricular activities, coupled with the stimulation of the environment, the children's autonomous learning ability is constructed. With the 5 core values of IAIE, we deliberately cultivate children's attitudes of respect, trust, optimism and caring towards others, and join the Kimochis social intelligence learning course and three-tier intervention model to strengthen students' social and emotional IQ, comprehensively enhance children's different potentials, take care of children's individual differences, and induce children's motivation to learn.</p>	
Assessment of children's learning experiences	
<p>The school uses continuous and summative assessments to evaluate children's learning progress, and then cooperate with children's school life reports to set up individual learning history files for each child to record the child's performance and issues reports regularly to let parents understand their child's learning progress.</p>	

School Characteristics	
School vision and mission

Curriculum planning	
<p>The concept of 'Happy Learning, Learning to Achieve' allows children to Learn by playing and exploring and it fosters students' all-round and balanced development with the nine generic skills. Children's self esteem will be strengthened and they will be motivated to think in the learning environment. Our curriculum is spiral-based and includes holistic innovative education elements. We aim at improving children's communication skills and collaboration skills. It is expected that children can use Chinese and English to discuss in complete sentences.</p> <p>We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.</p>	
Learning / Teaching approach & activities	
<p>Through drama teaching, free play and 'Be the Change', students can experience and explore things that they are related to and interested in. Activities include personal activities, discussions in pairs and group learning. Multi-sensory activities include Little Explorers / Cooking Classes, Visual Art Classes, Dance Classes, EQ Games and Bibi & Friends. The kindergarten cares for all and will arrange children to learn outside and participate in community activities. All these help children to care about their families, teachers, classmates and things around them. They also help children understand the needs of others and be more willing to help people, spreading love and care in the school as well as the community.</p>	
Assessment of children's learning experiences	
<p>In terms of learning assessment, in order to understand students' learning progresses, we adopt a continuous assessment method to allow parents to understand the development of their children in different aspects.</p>	

School Characteristics	
School vision and mission	
<p>In line with the spirit of Christ, we aim to provide children with a perfect pre-school education of which they are inspired to develop healthily in body and mind, build a noble character, and adapt to social life.</p>	
Support to students	
<p>The New Student Adaption Period and Parent-Child Classes are designed to help the children newly admitted to school adapt to the kindergarten life more easily, and our social worker is to promote children's healthy physical and mental development. The school also organizes vaccination services for children and different kinds of check-up. To help children develop a healthy lifestyle, we have been participating in the Spine Protection Campaign. To cater for learning needs of students, we have planned various activities and visitations.</p>	
Support to non-Chinese speaking (NCS) students	
<p>Received Grant for Support to NCS Students; appoint additional teaching staff / teaching assistants to support NCS students learning Chinese; arrange interpretation / translation services; engage NCS parent volunteers to enhance communication between school and parents; create an enriched language environment for mastery of the Chinese language; create an inclusive learning environment to facilitate students' integration; facilitate professional development for teachers to develop effective strategies to help NCS students learn Chinese.</p>

Curriculum planning	
<p>The curriculum is tailored on the 'child-oriented' principle - Physical, Mental development and Interest of children. We encourage children by "Learning through Play", "Learning by Doing" and provide diversified activities. Children build up their knowledge through personal manipulation. We inspire children's potential, strengthen communication skills with others, expressing opinions, solving problems, analyzing judgements, etc. We promote biliteracy and trilingualism, children are guided to listen and speak more and they have more opportunities to encounter different terms. This helps to strengthen their listening and speaking skills in their daily lives. In addition, we actively promote children's moral education, which lays a sound foundation for whole person education.</p> <p>We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.</p>	
Learning / Teaching approach & activities	
<p>We pursue theme, project, story-based teaching, Game and STEM. We invite professionals to our school for experience sharing, arrange site visit, group exploration activity, etc.</p>	
Assessment of children's learning experiences	
<p>Children's learning achievements are recorded through continuous observations across a total of six learning areas including Physical & Health, Chinese, Early mathematics, Science and Technology, Individual and Social and Arts.</p>	

School Characteristics	
School vision and mission	
<p>We speak our children in the form playing. We help our children to establish a good morality ,be polite and confident with humility. Our pleasant and independent learning environment explore the potential of our children.</p>

Curriculum planning	
<p>With a child-centered approach to teaching, we teach students in groups and through design activities with a view to providing a comprehensive learning experience and cultivating the spirit of self-learning. Our curriculum focuses on children's language development and Bi-literacy and Tri-lingualism.</p> <p>We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.</p>	
Learning / Teaching approach & activities	
<p>To enhance children's tri-lingual ability, the school has adopted a tri-lingual immersion integrated curriculum with the use of Cantonese, English and Mandarin in thematic teaching. English lessons are conducted by English teachers with the assistance of class teachers to keep order in the classroom. The curriculum includes theme-based learning, stories, games and phonics and both children and teachers communicate in English. In Cantonese lessons, theme-based learning and group activities will be conducted in Chinese by the class and assistant teachers. Mandarin lessons are conducted by Mandarin teachers with the assistance of class teachers to keep order in the classroom. The curriculum includes theme-based learning, stories, games, etc. The school also organise music, physical and arts activities to promote children's aesthetic development. Special activities are organised on Fridays such as religious activities, art, information and technology, ethics, English, Japanese, and Mandarin, etc. to help children develop their diverse talents and potential. Children are given time to play freely every day. This self-initiated, learner-centred playing stimulates children's imagination and creativity and also their interest in self-exploration. There are different types of activities for K2 and K3 whole-day class students such as activities associated with computers, aesthetics, arts, gardening, English, Mandarin and Japanese in the afternoon.</p>	
Assessment of children's learning experiences	
Through continuous observations, records are kept of children's learning process.

Curriculum Details	
Curriculum type : Local	
Curriculum planning	
<p>We follow the Whole-child Approach; activities are designed according to daily life experiences, interest and developmental needs. Children are encouraged to become independent active learners, via role-play, group discussions, high-scope corner play, religious studies, Orff music program, scientific explorations, and project approach; enhancing their spirit for cooperation and exploration. The curriculum promotes a well-balanced and comprehensive approach to children's moral and spiritual, cognitive, physical, social and aesthetic developments.</p> <p>We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.</p>	
Learning / Teaching approach & activities	
<p>The school employs a spiral teaching, step-by-step, approach to enhance infant learning, with a focus on bi-literacy and tri-lingualism. English and Putonghua are taught by specialist teachers to establish a strong foundation for children's language development. Learning is generally conducted in a group-based style, following such difference themes as Seasons, life experience and Festivals. Talks and demonstrations, festive events, performances and outings are arranged as appropriate to the curriculum to facilitate a deeper understanding through play and hands-on experience, interacting with peers and groups in different environments. By combining the resources available from both school and community, children not only develop necessary knowledge and skills, but importance is also placed on cultivating moral and ethical character.</p>	
Assessment of children's learning experiences	
<p>The school adopts continuous observation for assessing the various aspects of children's learning and development; cognitive, physical, emotional, social, aesthetic and cultural developments. A portfolio is established for each child, containing assessment records, creative artwork, documentation of various activities, parental feedback, etc, and are essential in allowing teachers and parents understand all aspects of a child's progress.</p>	

School Characteristics	
School vision and mission	
<p>The Hong Kong Sheng Kung Hui (Anglican Church) promotes a Christian whole-person educational model and is committed to nurturing the six fundamental areas (moral, intellectual, physical, social, aesthetic and spiritual growth) of childhood development. It is our mission to remain an exceptional school of Christian values in Hong Kong, providing quality education by means of the whole-person approach.</p>	
Support to students	
<p>The school provides parent-child orientation activities and an adaptation period for all new students. There are also regular lectures for parents and class observations. A social worker is available on the premises to help those children in need of extra support, and can provide referral services when necessary. In preparation for primary school life, visits to local primary schools are arranged on a regular basis. In addition, K.3 students are given a taste of primary school life via simulation sessions of a typical primary (year 1) schedule.</p>	
Support to non-Chinese speaking (NCS) students	
<p>Arrange interpretation / translation services; facilitate professional development for teachers to develop effective strategies to help NCS students learn Chinese.</p>	
Support to students with special needs	
<p>Joining the On-site Pre-school Rehabilitation Services.</p>	
Link with parents	
<p>Parent-teacher association : Yes</p>	
Other activities / communication with parents	
<p>The school actively promotes home-school cooperation; the Parent-Teacher Association (PTA) and the Volunteer Team. Each year, the school collaborates with these organizations to arrange various activities. In order to encourage children in developing good reading habits, there is a parent-child reading program, the 'Story Mamas & Papas' program (parent storytellers).</p>

Curriculum planning	
<p>Our curriculum incorporates the idea of 'learning through play'. It nurtures pupils on their peer interaction and exploring spirit and enhance them with a comprehensive learning experience through playing activities, religious studies, Orff music, corner games, artistic activities, scientific exploration and moral education. It also emphasises on the language development of the pupils and puts forward the teaching of bi-literacy and til-igualism.</p> <p>We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.</p>	
Learning / Teaching approach & activities	
<p>We adopt an integrated curriculum with tri-lingual immersion through play. Each class conducts Cantonese, English and Putonghua for thematic teaching. The pupils are enhanced their learning interests with diversified learning activities including project studies, interest activities, little experiments, simulating games, tours and visits. They are enriched their understanding on the information technology with the aid of computer and electronic learning materials on music, physical exercises and art and craft activities. We actively join the collaborative scheme organised by various institutions to help enhance the efficiency of teaching and learning. There are English, Putonghua and artistic activities for pupils in whole day session.</p>	
Assessment of children's learning experiences	
<p>With continuous observations and records, we assess and analyse the children on their general development situations.</p>

Curriculum planning	
<p>The school curriculum is constructed according to the Education Bureau's "Guide to the Pre-primary Curriculum". Our ability-appropriate curriculum is taught in different ways with elements that boost children's autonomous learning and is designed to provide children with the greatest care and the experience necessary for their learning. This arouses children's interest in learning and nurtures their balanced development in moral, intellectual, physical, social and aesthetic areas so that they get prepared for a bright future and grow into active, responsible, contributing citizens with a lifelong love of learning.</p> <p>We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.</p>	
Learning / Teaching approach & activities	
<p>Our teaching methods, such as theme-, group-, project-, story-, picture book- and situation-based teaching, vary with themes. We provide different themes which children can discuss on, so that they can improve their language and communication skills, understand each other, cultivate a good listening attitude, and finally acquire much knowledge. To create a relaxed pleasant environment for children, we organize a wide range of interesting activities and games based on themes. Training children interested in science through forecasting, verification results, so as to nurture children's inquisitiveness. We make full use of various activities including visits, seminars, competitions, skill show, etc., to cultivate children's self-confidence and affection.</p>	
Assessment of children's learning experiences	
<p>As part of our parent-school partnership initiatives, parents will gain an in-depth understanding of their children's growth & development, learning performance from their personal portfolios, development assessment reports and continuous learning performance reports in a bid to create a pleasant learning journey for our children.</p>

Curriculum Details	
Curriculum type : Local	
Curriculum planning	
<p>We cover six learning areas in accordance with the Education Bureau's 'Kindergarten Education Curriculum Guide' (2017). We foster comprehensive and balanced child development through free play, picture book teaching and arts integration. Our objective is to develop skills and talents needed internationally and locally, focusing on Attitude, Active-learning, Artistic Sensibility, Advocacy and Adaptability. We emphasise biliteracy and trilingualism by providing English and Putonghua classes, and we offer environmental education to encourage children to protect and cherish nature.</p> <p>We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.</p>	
Learning / Teaching approach & activities	
<p>Our curriculum uses picture books and a life theme-based approach to empower children to participate in their own learning. We offer bilingual classes to enhance language development. There are also specific areas such as a multi-purpose playroom, music room, rock-climbing wall, creative art gallery, reading corner and Amazing Blocks wall to enrich the learning environment. Children can explore and widen their learning experience in these spaces. We promote self-learning and encourage children to 'observe, explore, experience, associate, operate and use' through various teaching strategies and activities.</p>	
Assessment of children's learning experiences	
<p>We assess children's learning performance through continuous observation. We distribute Learning Assessment Reports and Learning Portfolios regularly, helping parents understand their children's overall development and progress.</p>

The Early Years Foundation Stage Curriculum (EYFS) 2012 (England and Wales)	
Learning / Teaching approach & activities	
The Early Years Foundation Stage is divided into seven key areas of learning: Personal, Social and Emotional Development, Physical Development, Communication and Language, Literacy, Mathematics, Understanding the World, and Expressive Arts and Design. Each term, each class explores these areas through a theme. In addition, children enjoy discrete PE sessions and specialist teacher led Music and swimming lessons each week.	
Assessment of children's learning experiences	
Formative and Summative assessments take place at regular intervals to provide individual next steps for learning for each child across the curriculum. Academic reports and Learning Journeys are shared with parents.	

School Characteristics	
School vision and mission	
Educational Excellence for Life and Leadership	
Support to students	
The School actively promotes and safeguards the welfare of its students. Pastoral care in the Lower School is led by each Class Teacher. The School employs a School Psychologist, an English for Academic Purposes Co-ordinator and an Individual Needs Co-ordinator who work within the School's Pastoral Support Committee to coordinate the pastoral care of students in all parts of the School.	
Support to non-Chinese speaking (NCS) students

Parent-teacher association : Yes	
Other activities / communication with parents	
Parents are encouraged to take an active role in life in the School community. Communication Diaries, collection points in the day and an open door policy between parents and teachers all ensure excellent relationships. The School has a parent-teacher association, Friends of Harrow, and each class has a Class Parent representative who helps to organise events for children and parents in the class. The School also runs forums for parents to provide feedback to the School, including the Food Committee and the Transport Committee.

Curriculum planning	
<p>Through play our children explore and develop learning experiences, which help them make sense of the world. They practise and build up ideas, and learn how to control themselves and understand the need for boundaries. They have the opportunity to think creatively alongside other children as well as independently. They communicate with others as they investigate and solve problems. They express their emotions and feelings in controlled and safe situations.</p>	
Learning / Teaching approach & activities	
<p>The Early Years Foundation Stage (EYFS) curriculum promotes a solely play-based curriculum to encourage growth and development of the 7 learning areas: Communication and Language; Physical Development; Personal, Social and Emotional Development; Expressive Arts and Design; Understanding the World; Literacy; Mathematics. Additionally, our school incorporates Jolly Phonics from K1-K3. This is a multi sensory approach to teaching literacy through synthetic phonics.</p>	
Assessment of children's learning experiences	
<p>Our teachers continuously observe the children within their class and highlight the progress on a termly basis using the EYFS tracking system. Children are deemed to be either Emerging, Achieving or Exceeding dependent on the Early Learning Goals they have achieved. Parent / teacher meeting online portfolio</p>	

School Characteristics	
School vision and mission	
<p>Children joining our school have already learnt a great deal. The Early Years Education we offer our children is based on the following principles: It builds on what our children already know and can do; It ensures that no child is excluded or disadvantaged; It offers a structure for learning that has a range of starting points, content that matches the needs of young children and activities that provides opportunities for learning both indoors and outdoors; It provides a secure, rich, challenging and stimulating environment.</p>	
Support to students	
<p>Children enrolled here receive a great deal of support to grow and develop. As part of our mission to offer children the opportunity to learn, we ensure teachers understand each child's stage of development; allowing them to deliver activities and experiences to promote progress. If a child has delays, our teachers are very proactive in implementing stage appropriate 'next steps' and communicating the child's needs with their parents. At times, our school may recommended that a child receives additional support.</p>

<p>We regularly hold outings, events and meetings throughout the school year. Most of which take place at times that allow working-parents to participate. Additionally, each week our teachers send an email containing photographs of the current weeks activities as well as the following weeks Lesson Plan to ensure the parents are involved in their child's educational journey. Hand books weekly observation.</p>

Curriculum planning	
<p>As an officially registered English kindergarten, we provide a great opportunity for students to be exposed to English as a child. At our school, children learn English words, spelling and conversations, and hence develop an interest in English. They will also learn to communicate with people with correct pronunciation and skills. All this helps them lay a good foundation of English learning. Our curriculum integrates "Theme-Based Teaching" with "Children's Design Activities" and incorporates a diversity of "Integrated Curriculum" and "All-round Learning" activities to guide children in the learning process and help them build self-confidence, an exploring spirit and interest in learning in preparation for admission to primary school. We devise rhythmic gymnastics and physical activities for children at regular times to enhance their agility and flexibility. We have Mandarin classes every day, and the Chinese classes for 5 year olds are all conducted in Mandarin to cater to the transition to primary school.</p>	
Learning / Teaching approach & activities	
<p>With a variety of materials, aids and objects, outdoor visits, a project-based learning approach and STEAM, we inspire children's curiosity, allow them to learn through play and improve their abilities in observation, thinking, judgment and creativity. We further set up small-sized language classes, promote interaction and improve children's language communication skills.</p>	
Assessment of children's learning experiences	
<p>Children are assessed in their physical and mental development through continuous observations with monthly records, and comprehensive assessments are given 2 times a year.</p>

Curriculum Details	
Curriculum type : Non-local	
Curriculum planning	
Curriculum We structure our curriculum carefully based on the local kindergarten curriculum guides issued by the Hong Kong Education Bureau, the Early Years Foundation Stage of the British Curriculum and the kidsDNA Education System Curriculum. We want to train our children to be open-minded and reflective learners who will be eager to discover the world with the essence of Chinese and Western cultures today and in the future.	
Learning / Teaching approach & activities	
Our curriculum is child-centered: Taking into consideration the needs of children, play-based activities and tie-to-real-life activities are integrated across all subject areas. Our curriculum adopts an immersion approach in language development: Our children are encouraged to use different languages in communication: Cantonese, English and Putonghua. Our teachers, including native English speakers and native Putonghua speakers, work closely together and accompany our children to pick up the languages via structured lessons and activities conducted class-wide as well as in small groups. Our curriculum is led by dedicated teachers: English teachers / tutors are native English speakers, most of them are university graduates and have received professional training in early childhood education. Putonghua teachers / tutors are native Putonghua speakers with solid academic background and qualifications, many of them are even talented in art, drama, music and dancing. Local teachers are native Cantonese speakers, they are qualified teachers holding recognized certificates, diplomas and / or degrees with sound experience in early childhood education. Our curriculum instills the habit of reading: A Share-reading Programme is specially designed for the purpose of developing our children's essential reading and literacy skills to nurture them to become young readers and then turn into life-long learners. Our curriculum develops our children with good behavior: "BabyDNA" makes use of scientific methods to provide children with a balanced development and the life-wide learning environment to promote children's proficiency.	
Assessment of children's learning experiences	
12 portfolios are provided by NET teachers and Chinese teachers for each student. Detailed observation of each student will be made and recorded.

Curriculum Details	
Curriculum type : Local and Non-local	
Curriculum planning	
<p>Our children come from a variety of backgrounds with a large portions going to both local and international schools. To ensure that students will have the maximum flexibility in their choice of schools, our syllabus is benchmarked to external international benchmarks, with a strong emphasis on English, Cantonese and Mandarin. Our kindergarten is understandably more challenging than traditional schools, but that is the reason why York is so popular among professional and accomplished parents who understand the need of preparing early.</p>	
Learning / Teaching approach & activities	
<p>Our teaching is arranged according to 2 major objectives: 1) To broaden international perspectives: Since 2006, we have been videoconferencing with partners such as the University of Cambridge as well as connecting with children from Miami, Texas, London, Wales, Miami, etc. We have also helped children from developing countries, even adopting 7 children one year from Haiti and Ethiopia through a charity art exhibition. This year, York is taking things to a new level. First, we are partnering with famous HK street artist XEME to create an NFT in the metaverse to help people in Turkey. We have also invited primary schools in Hong Kong and the USA to take part. Second, we are planning to have a simulated Dinosaur Dig, whereby children will get to unearth a Tyrannosaurus skull as well as talk to a paleontologist (dinosaur hunter). 2) International academic standards benchmarks: Our key subjects are benchmarked against teaching levels from the UK and USA. We encourage our students to challenge themselves against academic standards such as the Cambridge English Starters and Movers Tests, the American SAT 10 Mathematics assessment, the National College of Music, London preparatory violin exam, etc.</p>	
Assessment of children's learning experiences	
<p>1) In-school assessments: Every January and May. 2) External assessments: we encourage our students to enroll in international exams. Here are our latest achievements: English : Cambridge Young Learners' English Tests (Movers level) - our students' average score is 77% (scoring nearly 98.6% on the speaking portion). Math : Stanford 10 (math portion) - our students' average test level is equivalent to 3.4 grade student from the USA Putonghua : over 75% of the candidates from our school achieved distinction in the GAPSK putonghua test Science : our students participate in the UK's CREST awards programme Music : our students are encouraged to take part in the National College of Music preparatory violin exams.</p>

School Characteristics	
School vision and mission	
<p>We hold several beliefs in common, objectives that influence and shape every teacher here at York . These 8 objectives unite us in a common voice on what we do: helping children realize and reach their potential. 1) We educate the "whole" child. 2) We teach through experience. 3) We give children solid foundations. 4) We teach English early. 5) We help children develop interpersonal and intrapersonal skills. 6) We involve parents in the child's education. 7) We make learning fun for parents and children. 8) We make a commitment to our profession.</p>	
Support to students	
<p>We provide a lot of support. 1) Learning : High foreign teacher-to-student ratio in a small class setting; specialized software designed in-house to help children extend the learning process beyond the classroom; helping children to challenge international benchmarks in the core subjects of Putonghua, English and Mathematics. 2) Sportsmanship: We are the first kindergarten in Hong Kong to have a specialized in-house golf, archery and tennis programme, backed and sponsored by Prince Tennis. 3) Music: all of our students are exposed to the rudiments of playing the violin before they graduate. We also have an annual Christmas ball, whereby the boys invite the girls to the dance and the children get to practice the Waltz and the Flamenco that we taught them during the year.</p>
