Curriculum Details	
Curriculum type : Local	
Curriculum planning	
Children's learning schedule is designed in a spiral way based on their physical and mental development to cater to their interest in learning.	
We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.	
Learning / Teaching approach & activities	
We introduce theme- and activity-based teaching approaches. We provide training and guidance tailored to children's individual abilities by using a group learning approach. We arrange a wide range of outdoor visits which provide children with more opportunities for exploration, to develop their learning interest and drive them to learn knowledge initiatively. Children learn knowledge by doing.	
Assessment of children's learning experiences	
Learning progress is assessed per theme unit. Continuous assessment of children's development is held 3 times a year. A portfolio will be provided on an annual basis.	

School Characteristics	
School vision and mission	
We adopt an approach that is people-oriented in general and child-centered in particular that focuses on students' moral, intellectual, physical, social, aesthetic and spiritual development.	
Support to students	
Community activities to enhance students' self-confidence, New Students Adaption Period, partnerships with community agencies, Good Students Award Program, Jolly Phonics and high quality English Program, students seminars, etc.	
Support to non-Chinese speaking (NCS) students	
Received Grant for Support to NCS Students; appoint additional teaching staff / teaching assistants to support NCS students learning Chinese; create an enriched language environment for mastery of the Chinese language; create an inclusive learning environment to facilitate students' integration; facilitate professional development for teachers to develop effective strategies to help NCS students learn Chinese; participate in school-based professional support programmes organised by EDB.	
Support to students with special needs	
Joining the On-site Pre-school Rehabilitation Services. Joining the Pilot Scheme on Social Work Service for Pre-primary Institutions.	
Link with parents	
Parent-teacher association : Yes	
Other activities / communication with parents	
Parents' Day, Inter-School Parent-Child Sports Days, Parents School, Story Mom & Dad Workshops, Parent-Child Reading Programs, Parent-Child School Picnics, Christmas Celebrations, Parent-Child Gymnastics, Seminars, Workshops, Parent-Child Outdoor Learning Activities and Parent Volunteer Team	

Price of Major School Items (2022 / 23 School Year)

Curriculum Details	
Curriculum type : Local	
Curriculum planning	
<p>Our curriculum is developed on the basis of children's development stages, growth characteristics, life experiences, abilities and interests.</p> <p>We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.</p>	
Learning / Teaching approach & activities	
<p>We take project-based learning as a main approach, and provide inquiry questions considering children's interest and experience, to arouse children's motivation to learn. In addition, our professional teachers provide interactive corners by creating new and game environments, and children are encouraged to acquire basic knowledge and exploring skills during Doing and Playing.</p>	
Assessment of children's learning experiences	
<p>Children's portfolios are prepared according to their development stage – to record their development course through systematic observations and collection of their works.</p>	

School Characteristics	
School vision and mission	
<p>Mission: With the love of Christ, we have the expertise and are open and enterprising to create a beautiful learning environment where children are respected and loved; we work hand in hand with parents to get children prepared for future growth in the most appropriate way possible. Vision: - To empower children to attain holistic development in moral, intellectual, physical, social, aesthetic and spiritual aspects; To cultivate in children good habits and self-care ability; - To extend children's curiosity and creativity as a motivation of active learning; - To help children develop language competence to build self-confidence and communication skills; - To give children a pleasant social life experience and thereby develop positive values, the spirit of respect and care for others; To nurture children's appreciation of the beauty of life and culture; - To partner with parents with an emphasis on parental involvement in children's education.</p>	
Support to students

Curriculum Details	
Curriculum type : Local	
Curriculum planning	
<p>Through the implementation of religious education curriculum, we help the children to develop positive values and self-discipline as well as nurturing them to love God and their neighbours. With reference to the children's developmental needs, abilities and interests and life experience, we design school-based curriculum which is relevant to their daily lives.</p> <p>We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.</p>	
Learning / Teaching approach & activities	
<p>We implement integrative teaching and inquiry teaching to pique students' curiosity and enhance their self-learning and inquiring ability. We use the Sportsland, Music Land in our campus as well as organizing various kinds of visits to develop students' generic skills. Lessons conduct by native English teacher, Mandarin teacher and dancing teacher help improving children's ability in Bi-literacy and Tri-lingualism and the skills of music, sports and art.</p>	
Assessment of children's learning experiences	
<p>With the assistance of theme-based learning assessment, on-going observation assessment and electronic student portfolio, school and parents can keep track on students' development progress in cognition, physical ability, emotion & sociability, and aesthetic perception & culture aspects.</p>	

School Characteristics	
School vision and mission	
<p>Based on the teachings of the Bible and with the love of Lord, we offer quality holistic nursery education and caring services. It helps children attain balanced development in spiritual, moral, intellectual, physical, social and aesthetic aspects, and helps to develop right values and life-long learning ability.</p>	
Support to students	
<p>There are individual training plans and group activities dedicated for the students with special needs. We make the best uses of community and church resources to provide appropriate supports to students and their parents. Our school provide new students an Adaption Week and related activities in helping them to better adopt school life and smooth transition.</p>	
Support to non-Chinese speaking (NCS) students	
<p>Create an inclusive learning environment to facilitate students' integration.</p>	
Support to students with special needs

Curriculum Details

Curriculum type : Local

Curriculum planning

We aim at a wide range of themes and bilingual activities to enable children to explore their learning, to inspire their creativity and imagination, to promote children's pleasure and initiative. We target "to enjoy learning, to enhance effectiveness in communication, to develop creativity, and to have a sense of commitment" as our educational goals. We are committed to nurturing children's moral development, arranging biblical and life education activities and holding a birthday party every month to create a caring campus. Enhancing children's cognitive and language skills through daily English language activities and regular outdoor visits. We provide different physical appliances for training children large and small muscle development so as children participate in physical activities every day since childhood to establish a good living habits; by music appreciation, singing, musical instruments and art activities, children play creative. We also have a series of exploratory teaching aids, tablet computers, e-books and electronic materials to help children learn.

We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.

Learning / Teaching approach & activities

We implement group and thematic teaching approaches while organizing children for outdoor visits and other activities based on subject needs.

Assessment of children's learning experiences

For assessment: Our teachers assess students' behaviors and academic performance through observations and build portfolios with record sheets so as to revise the curriculum in a way that caters to students' abilities.

School Characteristics

School vision and mission

In line with the spirit of Christ, we are motivated and accountable to offer a whole-person education where students can learn happily.

Support to students

A New Students Adaption Period and school social workers to provide students with individual counseling as necessary.

Support to non-Chinese speaking (NCS) students

No information

Support to students with special needs

Joining the On-site Pre-school Rehabilitation Services.

Curriculum Details	
Curriculum type : Local	
Curriculum planning	
Curriculum arrangement corresponds with the children's development characteristics and needs. It covers different fields of study which enhances children's learning experience according to their ability.	
We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.	
Learning / Teaching approach & activities	
Through integrated curriculum, permeate elements of language and music into all the learning activities, provide comprehensive and interesting learning experiences for children. Make good use of community resources, and participate in community activities to support and broaden children's learning experience, for example, visiting "Road Safety Town", "Science Museum", etc.	
Assessment of children's learning experiences	
Evaluate children's learning experience in the form of continuous observation, and record children's development in every aspect with different assessment tools, in order to establish Children Learning Portfolio, and to share with parents regularly.	

School Characteristics	
School vision and mission	
The school is operated under the Hong Kong Society for the Protection of Children, our mission is to provide children with happy, caring, safe and diverse learning environment; to establish solid foundation for children's life-long learning; to inspire children's potential and holistic development. In addition, the school provides support and partnership with parents, and to develop children's good habits & self learning.	
Support to students	
We provide adaptation programme for new admission, preparation programme for primary one admission & referral to relevant social services in cooperation with other community institutions. Our "Educational Psychology and Developmental Support Services" formed by Education psychologist and social workers offer professional consultation, assessment, early identification, counseling and training services to children and parents.	
Support to non-Chinese speaking (NCS) students	
Arrange interpretation / translation services; create an enriched language environment for mastery of the Chinese language; create an inclusive learning environment to facilitate students' integration.	
Support to students with special needs	
Joining the On-site Pre-school Rehabilitation Services. Joining Integrated Programme in Kindergarten-cum-Child Care Centre.	
Link with parents	
Parent-teacher association : No	
Other activities / communication with parents	
For the promotion of home-school cooperation and parental education, our school holds regular parents' day, class observation, volunteering & parent-child activities. We provide the opportunity to let children actively involve in the life of the community. We keep ties with community and make arrangements for children to participate in external visits.

Curriculum Details	
Curriculum type : Local	
Curriculum planning	
<p>Our Curriculum focuses on the balanced development of children and provides diversified learning experience, to cater to children's physical and mental development, abilities, interests and experiences. In order to promote the language development of young children, our school employs Native English and Mandarin teachers who use a variety of activities and games to enhance biliterate and trilingual language learning. We offer comprehensive courses in music, athletics and arts, as well as a variety of arts activities for young children to express their thoughts and emotions while also aiding their physical development and developing their creative thinking and aesthetic ability. The school attaches great importance to the cultivation of children's moral character. Through dramatic storytelling methods, children can cultivate positive values and attitudes about getting along with others.</p> <p>We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.</p>	
Learning / Teaching approach & activities	
<p>To allow for the children's comprehensive and balanced development, we employ child-based teaching approaches, such as theme- and project-based teaching, and provide real-life contexts for learning. We design and offer a variety of learning activities and create learning zones based on the children's abilities and interests to develop their capacity for self-directed and constructive learning, problem solving and creativity. In addition, based on subjects and learning needs, we organize visits, outdoor learning, community services, etc., which aim to expand the children's experiences and knowledge. At the same time, by participating in different types of performances and competitions, children can boost their self-confidence, team spirit, artistic expression and creative potential.</p>	
Assessment of children's learning experiences	
<p>Children's physical and mental development and learning performance are analyzed through continuous assessment. We provide observation records in order to give proper guidance and feedback of learning and teaching.</p>	

School Characteristics	
School vision and mission	
<p>Our mission is to provide a holistic education based on Taoism, placing equal emphasis on students' moral, intellectual, physical, social and aesthetic development. In accordance with our motto "Grasp Principles, Cultivate Virtues", we are dedicated to helping students develop moral integrity and academic excellence.</p>	
Support to students	
<p>The School will have parent day, Parent-Child Adaptation Classes, K.3 Primary School Life Experience Weeks and social workers in residence at our school to cater for the individual needs of children and their parents.</p>	
Support to non-Chinese speaking (NCS) students	
<p>Received Grant for Support to NCS Students; appoint additional teaching staff / teaching assistants to support NCS students learning Chinese; arrange interpretation / translation services; engage NCS parent volunteers to enhance communication between school and parents; create an enriched language environment for mastery of the Chinese language; create an inclusive learning environment to facilitate students' integration; participate in school-based professional support programmes organised by EDB.</p>	
Support to students with special needs	
<p>Joining the On-site Pre-school Rehabilitation Services. Provide school-based social work service and on-site pre-school rehabilitation services to parents. Design diversified learning activities for individuals and small groups. We provide professional language development training and adjust the learning according to individual potential.</p>	
Link with parents	
Parent-teacher association : Yes	
Other activities / communication with parents	
<p>The Parent Team plays a vital role in improving school function, student learning and coordinating diversified activities. This also helps to enhance the spirit of the Parent-School Collaboration.</p>

Curriculum Details	
Curriculum type : Local	
Curriculum planning	
<p>Our curriculum is designed around children to cater to their development needs. Children learn a variety of topics that are planned around their real life experiences and interests through a diversified range of activities, including Enquiry-Based Science, Drama, ORFF MUSIC, Affective Education, Creative Arts activities, etc., to attain balanced development; Children are provided with Multi-Sensory training to encourage exploration and improve their ability of information processing and problem solving. We regularly review the aptness of our curriculum.</p> <p>We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.</p>	
Learning / Teaching approach & activities	
<p>With emphasis on children's personal exploration, we organize children to go out of the classroom and participate in community activities such as visits. We adopt activity-based teaching, project-based learning, and individual and group learning approaches in class, and teach children music according to Orff Music Philosophy. Native teachers are employed to teach children English, and we also arrange other activities, such as setting up interest classes.</p>	
Assessment of children's learning experiences	
<p>Children's learning portfolios and development reports are built to record their development in all aspects for continuous and summative assessment.</p>	

Monthly salary range of principal & teaching staff
(Data as of Mar. 2023)

- (i) ≤ \$30,000
(ii) \$30,001 - \$40,000

Curriculum Details
Curriculum type : Local
Curriculum planning
<p>According to the Education Bureau's Curriculum Guidelines, we adopt theme-based teaching through objects, pictures and environment layout, as well as electronic interactive whiteboards. We hope to enhance children's interest in learning with diversified activities.</p> <p>We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.</p>
Learning / Teaching approach & activities
<p>Our "Question – Explore – Experience" theory allows children build up new knowledge through experience gain from their exploration. Teachers will propose open-ended questions to guide children's creative thinking. And through peers discussions and interactions with teachers, our children may make improvement in their problem solving skills, learn to take initiative in their learning and unleash their potentials as the final goal. Besides classroom activities, we arrange various community learning activities for our children. For example, sightseeing, visiting, and even travelling etc. Throughout these activities, children may increase their living experience and widen their views.</p>
Assessment of children's learning experiences
<p>We provide a continuous evaluation and build up the "Personalized Developmental Profile", including Child Observation Profile, Child Developmental Report and by collecting our children's work, to deepen our understanding upon our children's developmental progression and learning performance.</p>

School Characteristics
School vision and mission
<p>With Love, Respect, Diligence and Integrity as the four elements of our school motto, we adopt a student-centered approach that focuses on cultivating in students positive moral character and learning attitude, and promoting their moral, intellectual, physical, social and aesthetic development.</p>
Support to students
<p>Adaptive Weeks for new students, visits and adaption for P.1 students, on-site social workers, etc. Cooperative activities with community institutions (e.g. school visit activities) to improve children's understanding of home safety, road safety, environmental protection, etc.</p>
Support to non-Chinese speaking (NCS) students
<p>Received Grant for Support to NCS Students; appoint additional teaching staff / teaching assistants to support NCS students learning Chinese; engage NCS parent volunteers to enhance communication between school and parents; create an enriched language environment for mastery of the Chinese language; create an inclusive learning environment to facilitate students' integration; facilitate professional development for teachers to develop effective strategies to help NCS students learn Chinese; participate in school-based professional support programmes organised by EDB.</p>
Support to students with special needs
<p>Joining the On-site Pre-school Rehabilitation Services.</p>
Link with parents
<p>Parent-teacher association : Yes</p>
Other activities / communication with parents
<p>Through organizing parents' day, class observation and parent-child activities, we facilitate the communications and the bonding between parents and our school. We also provide resources corner and community-support information for parents' reference. Moreover, we schedule different talks and workshops in order to strengthen the skills of parenting.</p>

Curriculum Details	
Curriculum type : Local	
Curriculum planning	
<p>1. Importance of student's all rounded development. 2. Importance of teaching etiquette through positive education, so that students can develop correct morals and values. 3. Implement biliterate and trilingual language approach. This includes the arrangements of Putonghua lessons and foreign teachers to teach English as well as the inclusion of phonics into the curriculum. This will enable them to integrate into today's society better. 4. For environmental education the school has a roof garden for students to experience nature. 5. The school curriculum is tailor-made for the students so that they can learn through real life experiences. Starting from learning about themselves and then expanding to their community and the rest of Hong Kong as well as our country. 6. Dynamic education to enable students to learn through play. This includes teaching methods, theme-based learning and small group activities and story-based learning.</p> <p>We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.</p>	
Learning / Teaching approach & activities	
Teaching methods, theme-based learning and small group activities and story-based learning.	
Assessment of children's learning experiences	
The school creates a student portfolio to record student's development in the six major developmental areas as well as an overall developmental record. This is to let parents understand their child's developmental progress.	

School Characteristics	
School vision and mission	
In line with the spirit of Christ, we are motivated and accountable to offer a whole-person education where students can learn happily.	
Support to students	
The school has an in-school social work to council or refer students who may have the need.	
Support to non-Chinese speaking (NCS) students	
Create an enriched language environment for mastery of the Chinese language.	
Support to students with special needs	
Joining the On-site Pre-school Rehabilitation Services. Providing Timely Referral Services.	
Link with parents	
Parent-teacher association : No	
Other activities / communication with parents	
We provide Parent-Child School Picnics, Parent-Child Sports Days, Parents Fellowship, Parents' Class Visits, Parents' Day, Home Visits, Correspondences and Announcements in Handbooks, teachers' regular Phone Contact with parents to understand and give parents an understanding of students' performance at school.

Curriculum Details
Curriculum type : Local
Curriculum planning
We put an emphasis on moral education as according to the curriculum guidelines of the Education Bureau and children's life experience and interests. With the "child-centered" educational philosophy, we use a variety of games and activities to build children's life attitudes and values. We strive to foster children's balanced development in the six domains which are ethics, intellect, social skill, aesthetics and spirituality.
We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.
Learning / Teaching approach & activities
We adopt the theme-based learning approach and the play-based learning approach, engaging children in a diversified range of integrated and exploratory activities that are closely related to their daily life experiences to enhance their motivation to learn, ability of expression and problem-solving skills. We also instil in children a positive attitude towards learning through "Positive Education" and provide them with a happy school life where they can experience the love of God and learn to live a fruitful life. Our programmes include: The Boys' Brigade, Hong Kong, Heep Hong Society Shares Service Experience on On-site Pre-school Rehabilitation Services (OPRS) Pilot Scheme, Seasonal Influenza Vaccination School Outreach (Free of Charge) (the Programme), Straighten-up Excellent School Scheme, Zippy's Friend emotion programme, good student incentive programme, green campus programme, one student one flower programme and parent-child reading programme; our activities include: community donation, parent-child tooth care activity, traffic safety lecture, visit to communities, visit to Sunny Smile Fairyland, primary school Sports Day, and interschool dancing and singing contests.
Assessment of children's learning experiences
We make assessment on children's six categories based on on-going observation.

School Characteristics
School vision and mission
Aiming to develop ourselves into a kindergarten acceptable to God. In the spirit of Christ's love, make our efforts to educate students to be self-reliant and prepared to carry responsibilities in a quality and pleasant learning environment.
Support to students
Social workers coaching students and families in need; providing emotion courses; new students adaption and parents' meeting for progressing adaption; contacts with and supports from universities and colleges; coaching newly immigrated students and families in need; parent fellowship & volunteers assisting student activities.
Support to non-Chinese speaking (NCS) students
For Non-Chinese speaking (NCS) children, an early start in learning the Chinese language will facilitate their adaptation to mainstream curriculum and integration into the local community. The school will provide both Chinese and English versions of their application forms and relevant information, school's webpage will include English versions of the relevant information. If interviews are arranged for NCS children, the school will arrange a translation service for applicants where necessary or allow parents to be accompanied by a Chinese speaking relative / friend during interview so as to facilitate communication.
Support to students with special needs
Joining the On-site Pre-school Rehabilitation Services.
Link with parents
Parent-teacher association : No
Other activities / communication with parents
Parents' day, parent class observation, parenting seminar, parent series courses (including courses dedicated for dad and mom), mom interest class, parent-child activities, game day, trip, etc. Besides, we also maintain a good communication with parents through regular phone calls & message, student manual, school website, etc.

Curriculum Details

Curriculum type : Local

Curriculum planning

We structure our curriculum based on the "Guide to the Pre-primary Curriculum" to cater to children's development characteristics and needs and their life experiences. Therefore, our children can learn to learn through play and develop problem-solving abilities, which engenders their potentials and self-learning spirit.

We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.

Learning / Teaching approach & activities

We organize activities in a variety of teaching approaches, such as theme-based teaching, group teaching, project-based learning and activity approach. To enhance children's language competence and self-confidence, we include drama elements to our curriculum, and provide children with an opportunity of playing different roles, in which they can show their love for others. With the focus on bi-literacy and tri-lingualism learning, we engage professional teachers to teach children Mandarin and English courses.

Assessment of children's learning experiences

Through continuous observations, records are kept of children's development in all aspects, with appropriate counseling and follow-up. A further children's learning assessment sheet is distributed on a monthly basis to give parents an understanding of their children's performance in all aspects at each learning stage.

School Characteristics

School vision and mission

Following the spirit of Christ and the revelations of Gospel, we are committed to educate children with love. In doing so, we seek to cultivate in children the spirit of serving others and loving others as you love yourself, and help them develop self-confidence, distinguish between right and wrong and live a brilliant life.

Support to students

A New Students Adaption Period with progressive school-time to help children adapt to school life. Mock P.1 learning activities and primary school visits and interest activities for children are arranged to give them a preliminary understanding of primary school life.

Support to non-Chinese speaking (NCS) students

Received Grant for Support to NCS Students; appoint additional teaching staff / teaching assistants to support NCS students learning Chinese; arrange interpretation / translation services; engage NCS parent volunteers to enhance communication between school and parents; create an enriched language environment for mastery of the Chinese language; create an inclusive learning environment to facilitate students' integration; facilitate professional development for teachers to develop effective strategies to help NCS students learn Chinese.

Support to students with special needs

Joining the On-site Pre-school Rehabilitation Services.

Link with parents

Parent-teacher association : No

Other activities / communication with parents

In order to promote parent-school collaboration, we provide a Parent-School Team, Parents' Day, Children's Fun Day, Parents Seminars, Parents Workshops, Parent-Child activities, Parents' Class Visit activities, Story Aunt Storytelling, Loving Aunt's counselling for students in need, etc., in order to enhance parents' sense of belonging to the school.

Curriculum Details	
Curriculum type : Local	
Curriculum planning	
<p>Centred on children, we implement comprehensive curriculum and train independent learning ability to help develop a good learning attitude and character.</p> <p>We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.</p>	
Learning / Teaching approach & activities	
<p>1. Project Approach – To stimulate children to explore voluntarily and build up knowledge through the process of observation, discussion and exploration; 2. Montessori Method – To train mathematical and logical thinking, and develop reading and writing skills and self-care ability; 3. Fun With English – To arouse children's interest in learning English, and articulate listening and pronunciation skills; 4. Concerning individual child's needs and development, we foster positive and optimistic values through manifesting the Love of Jesus Christ.</p>	
Assessment of children's learning experiences	
<p>Continuous assessments; a profile on a child's learning is kept.</p>	

School Characteristics	
School vision and mission	
<p>Objectives: To provide quality holistic education and child care services so as to lay good foundation for children; to provide opportunities for creative expression so children release their potentials; to emphasize home-school collaboration. Partnership is formed with families for attainment of good teaching and learning outcomes; to promote child education strategies and methods</p>	
Support to students	
<p>The School has student support teacher and school social worker to provide counselling for children and families in need.</p>	
Support to non-Chinese speaking (NCS) students	
<p>No information</p>	
Support to students with special needs	
<p>Joining the On-site Pre-school Rehabilitation Services. The school offers "Integrated Services" and "On-site Pre-school Rehabilitation Services" for children with special needs. Through the inter-professional collaboration model (which includes special child care workers, speech therapists, physical therapists, occupational therapists, psychologists and social workers), we provide professional and appropriate training for children with special needs as well as supporting parents.</p>	
Link with parents	
<p>Parent-teacher association : Yes</p>	
Other activities / communication with parents	
<p>A parent-teacher association is set up to allow the parents to participate school activities and do voluntary work, so as to promote home-school cooperation. Moreover, the Salvation Army Pre-School Education Services Joint Parent Association is organized to strengthen contacts between parents and teachers of various schools, assist joint school activities, provide parent education and jointly discuss pre-school education in order to deepen home-school cooperation.</p>

Curriculum Details
Curriculum type : Local
Curriculum planning
<p>We set the featured curriculum with life education as axis and according to "The Guide to the Pre-primary Curriculum" published by the Education Bureau aiming to achieve an integrated and comprehensive development of children's physical, cognitive and language, moral, affective and social, and aesthetic area. We arrange native English teachers and Mandarin teachers to create a vivid language learning environment for the children.</p> <p>We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.</p>
Learning / Teaching approach & activities
<p>With the child-centered principle, teachers apply diverse pedagogies integrating with culture, art, technology as well as the social resources, so that the children are inspired into a spirit of exploration and creativity.</p>
Assessment of children's learning experiences
<p>We conduct ongoing learning assessment for children through theme-based learning assessment form, children observation record, analysis of children's works and report on physical and psychological development of children.</p>

School Characteristics
School vision and mission
<p>1. Teaching children according to the truth of the Bible and experiencing the love of Christ. 2. Nurturing good character and building up a happy life. 3. Constructing diverse knowledge and inspiring self-learning ability.</p>
Support to students
<p>We have school-based social workers, educational psychologists and speech therapists who help promoting children's holistic development and enhancing family harmony. Agency's clinical psychologist also provides support when necessary. Intergrated programme, occasional child care service and extended hour service are also in place for needy children and families.</p>
Support to non-Chinese speaking (NCS) students
<p>Received Grant for Support to NCS Students; appoint additional teaching staff / teaching assistants to support NCS students learning Chinese; facilitate professional development for teachers to develop effective strategies to help NCS students learn Chinese.</p>
Support to students with special needs
<p>Joining the On-site Pre-school Rehabilitation Services. Through the "Integrated Programme in Kindergarten-cum-Child Care Centre", we support children with special needs referred by the SWD. Our educational psychologists, clinical psychologists and speech therapists also render support to other children with special needs without SWD referrals.</p>
Link with parents
Parent-teacher association : Yes
Other activities / communication with parents
<p>We emphasize home-school collaboration and have set up Parent Teacher Association (PTA). PTA hold regular meetings to organize educational talks and celebrating activities, facilitating home-school connection. Also, parents are invited to parent meeting and other activities to enhance their understanding on the school's philosophy and the children's learning.</p>

Curriculum Details

Curriculum type : Local

Curriculum planning

The school designs a wide range diversified learning activities based on the picture books teaching. All curriculum contents are composed according to children's physical and mental development, interests and abilities. 8 intelligences and 9 generic skills are also be integrated into the curriculum. Through merging visual arts, physical movement and music elements into picture books teaching materials, a creative and comprehensive art curriculum can be developed to cultivate children's creativity.

We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.

Learning / Teaching approach & activities

We provide diversified activities, including drama, exploratory and interactive games, learning projects, experience-based learning, multi-sense learning activities, multi-media teaching and other interesting activities to inspire children. We also provide different types of training programs to help children reach their full potential and develop their interest in art.

Assessment of children's learning experiences

We record children's academic performances and physical and mental development based on on-going observation and make their learning progress into Children's Study Portfolio.

School Characteristics

School vision and mission

We aim on children's moral, intellectual, physical, social ability & aesthetic development by holistic education. We emphasize on cultivating children's morality, multiple intelligence and ability on physical & art development. Provide a green, healthy, safe and harmonious campus environment to enable their experience on happy learning. Through healthy refreshment, physical activity and resources cherishing activity to enrich their school life. Provide different extra-curricular activities.

Support to students

New Students Parent's, orientation for new students, P1 admission Seminar, P1 school experience activity, emoting coaching, special education referrals, On-site Pre-school Rehabilitation Service, School Social Work Service etc

Curriculum Details

Curriculum type : Local

Curriculum planning

Our school provides appropriate, comprehensive and inspiring curriculum according to the students' development, needs and interests, and endeavor to design and arrange some elements in the curriculum to improve students' abilities of communication, collaboration and innovation.

We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.

Learning / Teaching approach & activities

Our school adopts "Project Approach" and "Thematic Teaching Approach", attaches importance to children's firsthand experience and let children have in-depth and meaningful discussions on different themes through visiting, observation, questioning, comparison, discussion, reporting, etc., so as to develop children's ability to actively explore and collect knowledge. Recently, we also implement "Creative Children Science Curriculum" and "Dramatic and Stories Approach integrated Curriculum". Through these systematic and interesting curricula, we hope to facilitate creativity and nurture curiosity in children. We are willing to let our children have courage to try, dare to explore and be good at expression. We engage professional English teacher and foreign English teacher for our English program. We teach children English through different activities, such as "Shared-book Reading Approach" to let children read interesting English stories to enhance children's language development. Furthermore, we provide "Mandarin Learning Program" for children in order to foster children's abilities of listening and speaking in Mandarin.

Assessment of children's learning experiences

Our school sets up a systematic developmental portfolio for each child based on on-going observation and assessment, collect necessary information on a regular basis to know about children's developmental progress, and provide appropriate care and diverse activities according to their actual needs.

School Characteristics

School vision and mission

We focus on improving children's language expression, cooperation with others and creativity, we also help children to achieve their whole person development in a pleasant and inspiring "children centered" environment and with parent's collaboration so as to get them prepared for challenges in the future.

Support to students

We offer P.1 adaption program to make the children well prepared for P.1 school life; provide new students adaption period to help them adapt to their school life; and have social workers, clinical psychologists, occupational, physical and speech therapists providing professional supports.

Support to non-Chinese speaking (NCS) students

Arrange interpretation / translation services; create an enriched language environment for mastery of the Chinese language; create an inclusive learning environment to facilitate students' integration; facilitate professional development for teachers to develop effective strategies to help NCS students learn Chinese.

Support to students with special needs

Joining the On-site Pre-school Rehabilitation Services. We also provide training and care to mildly disabled preschoolers through Integrated Program from Social Welfare Department.

Link with parents

Parent-teacher association : No

Other activities / communication with parents

We organize various activities, e.g. parents' meeting, parent class observation, seminars & workshops, individual parent-teacher interview, parent-child activities and regular parent newsletters, to build a close partnership with parents. In order to strengthen the communication with parents, we keep contact with parents through notification, by phone, parents newsletter (seasonal magazine), school website and mobile application.

Curriculum Details	
Curriculum type : Local	
Curriculum planning	
<p>Anchors International Education Group is a Christian school committed to providing a loving, caring and inspiring teaching environment in cooperation with American Invitation Education. Anchors Kindergarten originates from Christian beliefs and the Invitational Education approach (IAIE originated in the U.S.). We believe that all children are capable, valuable and possess a responsible attitude. Combining the standards of Chinese and International education, we can explore each student's unmitigated potential, allowing them to cultivate their unique personal qualities and to learn to respect different cultures.</p>	
Learning / Teaching approach & activities	
<p>Our school curriculum will adopt the advantages of "Thematic Teaching Approach" and "Project Approach" for integrated teaching. Teachers will plan themed lessons and activities, so students can learn in a variety of ways both inside and outside of the school classrooms. Teachers will plan the lessons and activities based on the students' interests. Through designing activities, children can develop their curiosity to explore new knowledge, enhance children's learning interest, trigger more thinking, ask more questions and try more. Anchors International Education Group aims to inspire students and help cultivate their problem solving skills. Our school integrates "Social Emotional Intelligence Education" into the curriculum, so students can learn the skills of managing their own emotions. In addition, as reading is such an important skill for students to learn, Anchors has also placed an emphasis on reading in the curriculum. Childhood is the most important growth stage in life, so we have specifically hired professional fitness teachers to design appropriate physical activities that cater to each students' individual physical development. We encourage students to participate in different types of competitions and performances in order to increase their self-confidence.</p>	
Assessment of children's learning experiences	
Children's progress portfolio & Children's Continuous Comprehensive Assessment.	

School Characteristics	
School vision and mission	
<p>Our school is committed to providing children with a learning environment which is full of love and care. Contemporary teaching methods combine the core values of chinese and western education to educate students to respect different cultures and inspire them to be honest and trustworthy individuals. In addition, we provide a stimulating and joyful environment for our students, with an extensive curriculum that instills positivity in children.</p>

Curriculum planning	
<p>Anchors International Education Group is a Christian school committed to providing a loving, caring and inspiring teaching environment in cooperation with American Invitational Education. We believe that all children are capable, valuable and responsible. The spirit of responsibility, combined with the essence of Chinese and international education, explores students' personal potentials, cultivates personal character, and teaches them to embrace diversity.</p>	
Learning / Teaching approach & activities	
<p>The school curriculum is designed with "1+S", where "1" represents the school-based curriculum; "S" stands for STEAM (Science, Technology, Engineering, Art and Mathematics) curriculum. The school-based curriculum will adopt the advantages of "theme teaching" and "design activities" for integrated teaching. Teachers will often plan themed lessons and learning activities so that students can learn in a variety of ways both inside and outside of the school classrooms. One day per week will be designated as "STEAM Day", where teachers will plan STEAM-themed lessons and activities based on the students' interests. They will perform small experiments, design activities, and interacting with Temi, Anchors' artificial intelligence robot. Temi will interact and answer the students' questions, and is loaded with tons of state-of-the-art technologies that will help encourage students to explore all their passions and interests. Anchors International Education Group aims to inspire students and help cultivate their problem solving skills. Hands-on engineering and visual arts projects will help prepare students for the rapid development of science and technology in the future. We incorporate "Social Emotional Intelligence Education" into the curriculum, so that students can learn the skills of managing their own emotions. In addition, as reading is such an important skill for students to learn, Anchors has also placed an emphasis on reading within the curriculum. Childhood is the most important growth stage in life, so we have specifically hired professional fitness teachers to design appropriate physical activities that cater to each students' individual physical development. Curriculum Details	
Curriculum type : Local and Non-local	
Curriculum planning	
The play-based curriculum is designed around themes that focus on developing students' thinking, creative and social-emotional skills.	
Learning / Teaching approach & activities	
Our teachers work with students in whole group circle times, small group learning and personalized learning times. Through our themes, an array of science learning takes place. We aim to develop students' communication and thinking skills by using ideas such as talk partners and high order questioning.	
Assessment of children's learning experiences	
Formative assessment: through a portfolio that contains observation records, checklists, photographic evidence and students' work.	

School Characteristics	
School vision and mission	
To develop the skills in students so they love to learn, and can think creatively while being caring, helpful citizens.	
Support to students	
We offer differentiated learning, so those students who need individualized support receive it.	
Support to non-Chinese speaking (NCS) students

Curriculum Details

Curriculum type : Local

Curriculum planning

According to children's physical and mental development needs and life experience, we provide interesting activities to let children experience and explore in person and stimulate their creative thinking through practice, confirmation and problem solving. In the course we aim to develop children's ability to actively express, collaborate and communicate, solve problems and "learn to learn". Moreover, we create an atmosphere for the children to feel mutual respect, care and help in daily interactions in school life, so as to help children develop positive moral values and attitudes.

Learning / Teaching approach & activities

We aim to let children "learn from practice" and "learn from play" as interest is the power for children to learn, games constitute learning experience, perception activities are the media for children to learn, observation, inquiry, thinking and imagination are the learning approaches, and sense of achievement is an enhancer for children's learning.

Assessment of children's learning experiences

Since every child is an individual and differs in learning ability and progress, at the beginning of each academic year teachers will set a goal of self-improvement for each child. Teachers will make a systematic record of children's performances during various activities at school based on on-going assessment so as to have a good grasp of each child's characteristics and progress and therefore choose the most suitable teaching approach for them.

School Characteristics

School vision and mission

Interactive activities themed on teaching children to love and to be loved, to appreciate themselves and others, and to share with and accept each other enable children to realize holistic development based on their individuality while enjoying a healthy, happy and fulfilling learning life.

Support to students

We provide supports for children in different ways, e.g. parent-child adaption activities, individual and group coaching, P.1 mock learning activities, etc.

Support to non-Chinese speaking (NCS) students

No information

Support to students with special needs

Joining the On-site Pre-school Rehabilitation Services.

Link with parents

Parent-teacher association : No

Other activities / communication with parents

Every year, we contact with parents through various activities, e.g. parents' meeting, new students adaption activities, parent-child trip, Christmas party, parent-child games day, seminars, parent workshop, etc. In addition, we also invite parents volunteers to plan parent-child activities together.

Curriculum Details	
Curriculum type : Local	
Curriculum planning	
<p>At ECLC, the multi-sensory curriculum for our 1 to 3-year-old students provides a stimulation-rich environment for them to grow and learn within. By highlighting the potential of each child and laying solid foundations for lifelong learning, the centre also enables children to take an active role in their own education and reflect on their learning experiences. The curriculum for students aged 3 to 6 years is underpinned by constructivist pedagogy and uses an inquiry-based teaching model that emphasises both the learning outcomes and the learning process. In addition, the centre actively promotes nature education and free play, as well as elements of music and drama education, in order to expose children to a diverse range of learning modes and opportunities.</p>	
Learning / Teaching approach & activities	
<p>The curriculum encourages children to learn through observation, manipulation, application, and reflection, so they are empowered to explore the world around them and construct their own knowledge and experiences.</p>	
Assessment of children's learning experiences	
<p>1. On-going assessment of different factors, including cognitive development, physical development, affective and social development, as well as aesthetic and cultural development 2. A portfolio system that involves compiling samples of children's work in order to document their progress over the course of an academic year</p>	

School Characteristics	
School vision and mission	
<p>Provides a rich learning environment for children of one to six years old that allows each child's potential to be optimized through the shared joy of learning and teaching. Also, we support the Professional Development of Early Childhood Teachers, as well as demonstrate and disseminate Innovative practices.</p>	
Support to students	
<p>1. Transition programs from home to Preschool 2. Cooperation between school and community 3. Transition programs from Preschool to Primary School 4. Alumni gathering 5. On-site Pre-school Rehabilitation Services</p>	
Support to non-Chinese speaking (NCS) students

Curriculum Details

Curriculum type : Local

Curriculum planning

We provide high-quality holistic education in pursuance of cultivating children's positive values and attitudes through a happy learning environment. Our bilingual curriculum written by highly educated early-childhood education specialists covers multiple areas of study to enhance children's comprehensive ability to listen, express, read and write. We develop children's language, social skills, artistic abilities, and many other aspects of their personality while simultaneously inspiring them with a global perspective.

Learning / Teaching approach & activities

Our curriculum is heavily influenced by the spiral and theme learning approaches. Our diversified activities create fun and learning motivation for students through fun activities. Utilization of current technology in classrooms keeps students up-to-date with the modern world. Children interact with both native Chinese and English speakers on a daily basis, in which accelerates their ability to interact in a multi-language environment. Our quality instruction, interactive grouping activities, engaging scientific explorations, exciting outdoor visits, aesthetic festival celebrations, and other learning activities ensure our students receive a well-rounded and enriching educational experience.

Assessment of children's learning experiences

Our teachers would prepare for each student a comprehensive portfolio with photo records and text analysis of their early childhood development, covering various categories such as cognitive awareness, self-ability, social ability, creativity, and physical development. A detailed report of their growth is recorded in the portfolios according to the development scale and academic assessment, which illustrates an overall picture of a student's progress over the year and are presented to parents at the end of each semester in order to comprehensively enhance the development of children in various areas.

School Characteristics

School vision and mission

To cultivate children by providing high-quality education delivered by excellent teachers using advanced learning materials. We desire to inspire children through love and kindness, teaching them core societal values, positive attitudes, and strive for life-long learning. We encourage children to become contributors to the local and global society.

Support to students

Our New Students' Parents Meetings and student adaptation periods will help both parents and students understand and adapt to new school life. Primary school information sessions, simulated primary school interviews, campus tours and simulated adaptation periods prepare our students for their transition to primary school. We also have a students rewards system which encourages children to participate in various extra-curricular activities, as well as large-scale competitions and performances to broaden children's horizons and enhance their self-confidence.

Support to non-Chinese speaking (NCS) students

No information

Support to students with special needs

No information

Link with parents

Parent-teacher association : No

Other activities / communication with parents

Cooperation between school and parents is of great importance to a child's development. In order to maintain close contact among teachers and parents, teachers keep contact with parents by making regular phone calls to keep track of the child's condition. Parent's day is held bi-annually, during which parents have a one-on-one meeting with their child's teacher. We also maintain a photo album on our website to share the joyful experience of our students. We encourage active parent involvement in school events, for example, Mid-Autumn Festival Gala Night, Autumn Picnic, Parent-child sports day, in order to give parents, teachers, and students a chance to interact outside of the classroom.
